

UNITED STATES DEPARTMENT OF COMMERCE
Economics and Statistics Administration
U.S. Census Bureau
Washington, DC 20233-0001
OFFICE OF THE DIRECTOR

March 5, 2019

Mr. Ben Welsh
MuckRock News
DEPT MR 68442
411A Highland Avenue
Somerville, MA 02144
68442-71577090@requests.muckrock.com

Dear Mr. Welsh:

This letter is in response to your correspondence, dated February 4, 2019, to the U.S. Census Bureau's Freedom of Information Act (FOIA) Office. We received your request in this office on February 4, 2019, and have assigned to it tracking number DOC-CEN-2019-000604. We are responding under the FOIA to your request for:

A copy of any and all style guides that govern the logo, branding rules, publication formats and data visualizations for past decennial censuses, from Census 1950 through Census 2010.

Enclosed are five (5) documents (336 pages) that are responsive to your request for 2000 through 2018, which we have determined are fully releasable under the FOIA. There is no charge for these documents.

Additionally, our search of the U.S. Census Bureau records failed to identify any records related to the years 1950 through 1990. Unfortunately, we are unable to assist you with your request.

You have the right to appeal this denial of the FOIA request. An appeal must be received within 90 calendar days of the date of this response letter. Address your appeal to the following office:

Assistant General Counsel for Litigation, Employment and Oversight
Room 5896
U.S. Department of Commerce,
1401 Constitution Avenue, N.W.
Washington, D.C. 20230

Mr. Ben Welsh, DOC-CEN-2019-000604
March 5, 2019
Page 2

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov, by facsimile (fax) to 202-482-2552, or by FOIAonline, if you have an account in FOIAonline, at <https://foiaonline.regulations.gov/foia/action/public/home#>. The appeal should include a copy of the original request and initial denial, if any. All appeals should include a statement of the reasons why the records requested should be made available and why the adverse determination was in error. The appeal letter, the envelope, the e-mail subject line, and the fax cover sheet should be clearly marked "Freedom of Information Act Appeal."

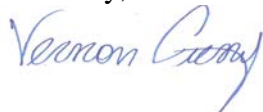

The e-mail, fax machine, FOIAonline, and Office are monitored only on working days during normal business hours (8:30 a.m. to 5:00 p.m., Eastern Time, Monday through Friday). FOIA appeals posted to the e-mail box, fax machine, FOIAonline, or Office after normal business hours will be deemed received on the next normal business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

In addition, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows:

**Office of Government Information Services
National Archives and Records Administration
8601 Adelphi Road-OGIS
College Park, Maryland 20740-6001
e-mail at ogis@nara.gov
telephone at 202-741-5770; toll free at 1 877-684-6448
facsimile at 202-741-5769**

Please contact Deloris Reed of my staff, by telephone at 301-763-2127 or by email at census.foia@census.gov if you have any questions regarding your request.

Sincerely,

Vernon E. Curry, PMP, CIPP/G
Freedom of Information Act/Privacy Act Officer
Chief, Freedom of Information Act Office

PANTONE® Coated & Uncoated Color Swatches

Introduction

The United States Census 2000 logo is the agency's most-used and best-known asset. It is the cornerstone of the Census 2000 program.

Because of its importance, great care must be taken in the use of the Census 2000 logo. The logo must be presented in a consistent fashion, and its use must be governed by strict rules. If it is used haphazardly, the logo's value will be diminished.

Most uses of the Census 2000 logo will originate in various program design groups, but from time to time, Census 2000 workers outside of design groups are required to make judgements about the use of the Census 2000 logo, often relating to a one-time use. To facilitate consistency and quality in the use of the logo, among both professional and nonprofessional users, this manual has been prepared.

Exceptions to these guidelines are rare, and must be approved by the Census Bureau. Your assistance and cooperation in the protection of the Census 2000 logo is valued and appreciated.

Section 1

Census 2000 Logo Standards

1.1

Census 2000 logo

The Census 2000 logo consists of the words “United States Census 2000,” displayed in the specific fonts that were created for this logo, no other font can be used to build the logo.

When the Census 2000 logo is used, it should be sufficiently isolated from illustrations or other words/images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the word Census) away from illustrations, photographs, rules, page edges or other type.

1.2

Census 2000 Colors

The Census 2000 logo is limited to two developed colors, Census Red and Black. The use of tints, or lighter versions of these colors is allowed and provide a wide variety of combinations. Coated and uncoated paper stock swatches of the Census 2000 colors are provided in the back of this manual.

Census Red

PANTONE® 194C
(For coated paper stock)

PANTONE® 187U
(For uncoated paper stock)

Black
(Both coated and uncoated)

The colors shown in this book are for example only and are not intended to match Pantone colors. See the current Pantone Color Standards book for color swatches and formulas. Pantone is a registered trademark of Pantone, Inc.

Positive & reverse logos

1.3

Although the preferred use of the logo is Census Red or Black on a white or light background, there may be a need, from a design standpoint, to use the logo in a reversed format. Attention must then be given for the logo to be clearly readable. Background colors that are dark enough to provide adequate contrast should be used.

As a general rule, mid-range (45%-55% black) values should be avoided since they are too light for an effective positive logo use, but not quite dark enough to provide a crisp white reverse.

When a positive logo is used on a color background, such as colored paper stock, the logo will appear in Census Red or Black, whichever offers the most contrast between the stock and the logo.

Positive Logo

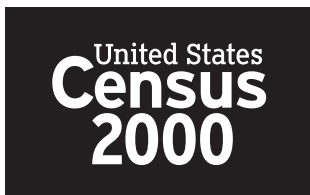

United States
Census
2000

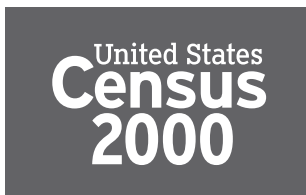

United States
Census
2000

Reverse Logo

United States
Census
2000

United States
Census
2000

Reproduction sizes

The logo should not be used so small that the readability or reproduction quality is reduced.

A solid positive logo or reverse logo should be no smaller than 5/8" wide. In addition, a screened positive logo or a screened reverse logo should be no smaller than 5/8" wide. See example below. Make sure the line screen is 133 or finer. If you want to use a coarser screen, make sure the logo is no smaller than 3/4" wide.

If a logo smaller than 5/8" is required, it must be approved by the or the US Census Bureau.

Unacceptable logo usage

1.5

Do not enclose the logo or the logotype in other shapes.

Do not violate the logo clear zone.

Do not place logo over complex backgrounds.

Do not underline the logotype.

Do not add or change typeface of logotype.

Do not abbreviate logo typeface or add other words.

Do not alter logo typestyle (ie. outlined.)

Do not alter color from accepted standards.

Do not alter size of elements within the logo.

Support typestyles

Typestyle consistency, particularly on United States Census 2000 logo application materials, is essential for projecting a cohesive public image and recognizable design style.

The Times type family as a serif typestyle and the Helvetica type family as a sans serif typestyle has been selected as the primary support typestyles for the United States Census 2000 identity system. These typestyles should be used for all text on materials using the Census 2000 logo. Shown here is a selection of available weights and styles of the Times Roman family and the Helvetica type family. Selection of the appropriate typography style within the Times Roman family and Helvetica family will be left to the discretion of the art director or project manager.

Asian American and Emerging Market Logos

To make the 2000 Census more readily understandable to those audiences unfamiliar with Census due to language barriers or country of origin, the Census 2000 logo has been translated for some of the Bureau's Asian American and Emerging European target markets. Usage should follow the guidelines outlined in sections 1.2-1.6 of this guide.

Section 3

AIAN Logo Standards

3.1

AIAN logo

The AIAN logo consists of the words “United States Census 2000” with two feathers encircling the words, displayed in the specific fonts that were created for this logo (see illustration in section 3.3). No other font can be used to build the logo. This logo is for use on products and materials created in relation to the U.S. Census Bureau’s Tribal Liaison Program only. The AIAN logo should never be used together with the Census 2000 logo on any material.

When the AIAN logo is used, it should be sufficiently isolated from illustrations or other words/images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the outside of the circle created by the feathers) away from illustrations, photographs, rules, page edges or other type.

Circles can be used in place of the “s” for measuring spacing around the logo, as long as the circles are the same height as the “s” as illustrated.

3.2

AIAN Logo colors

The AIAN logo is limited to two developed colors, Census Red and Black, as defined earlier in this style guide. The use of tints, or lighter versions of these colors is allowed and provide a wide variety of combinations. Coated and uncoated paper stock swatches of the Census 2000 colors are provided in the back of this manual.

AIAN logo color combinations

3.3

The AIAN logo combinations are to be used in the manner shown below only, solid black or red words and black feathers. Tints of those colors can be used but no lighter than 60%.

The logo can also be used in reverse, as solid white only, with a tinted background no lighter than 60% of the color used.

Positive Logo

Reverse Logo

Unacceptable logo usage

Do not violate the logo clear zone.

Do not place logo over complex backgrounds.

Do not alter position of the feathers

Do not add or change typeface of logotype.

Do not abbreviate logo typeface or add other words.

Do not alter logo typestyle (ie. outlined.)

Do not alter color from accepted standards.

Do not alter size of elements within the logo.

Use of the feathers only

3.5

The AIAN Logo feathers are a defining feature of the logo. They can be used alone to enhance material such as newsletters, flyers etc. However, the Census 2000 logo, the AIAN logo or the U.S. Census Bureau logo must be visible on the page in which the feathers are used. Shown are possible ways in which the feathers can be used in the manner described above.

Business Card Guidelines

A format has been designed for the Census Bureau that contains the Census 2000 logo along with the US Census Bureau logo (the US Census Bureau being the dominant logo). In addition, a format has been designed for the AIAN logo with the Census Bureau logo. This is the set format for the Census Bureau and its subsidiaries and must not be deviated from. For specifications of logos, typestyles and type sizes, refer to the Census Bureau Corporate Identity.

Footnote: All other Census Bureau Stationery ie. letterhead, envelope, fax coversheets, must follow the guidelines set by the Census Bureau corporate identity. See the Census Bureau internet website at: www.census.gov

Like print advertising, brochure design will always require a wide range of design and layout solutions in order to meet ever-changing communication requirements. Specific design standards, typesetting specifications, and other guidelines used by many other print applications in this manual will not apply. However, it is essential that all logo use guidelines discussed in section 1 of this manual be followed to ensure effective and proper use of identity.

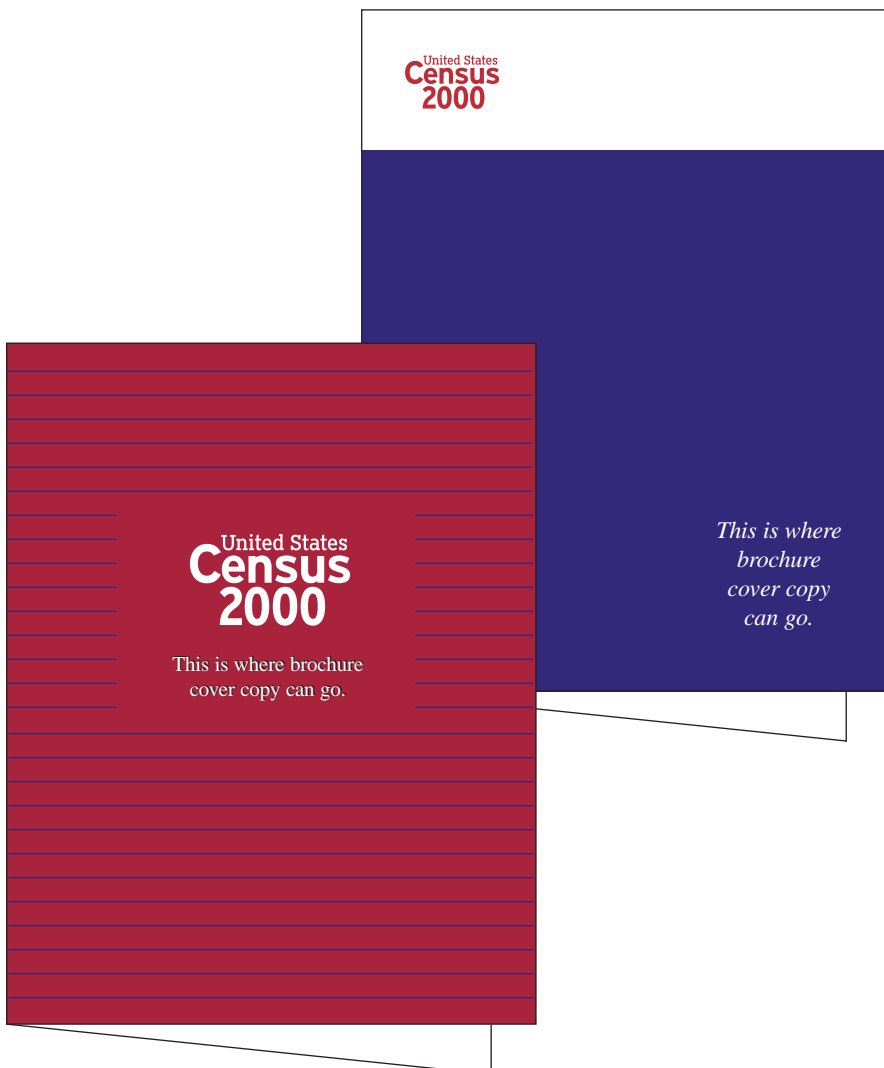

Always establish the minimum clear zone around the logo as diagrammed on page 3. The logo should be positioned so that it compliments the overall ad layout. A tastefully sized logo should be used. Over-sizing should be avoided.

The logo should appear in full-color whenever possible. Four-color process reproduction will likely be used in print advertising. Always use the four-color process formulas provided on page 4 of this manual.

5.1

Brochure cover examples with the Census 2000 logo

The following pages are examples of how the Census 2000 logo and the AIAN logo could be used alone with copy in accordance to the guidelines in section 1.

Brochure cover examples with the Census 2000 logo

Glossary of Terms

Address Block. The block of typeset copy that contains mailing information and/or telephone numbers and any additional access information.

Corporate Colors: Census Red and black (see page 1.2).

Flush Left, Rag Right: A typographic specification where copy will appear aligned on the left and will break naturally between words on the right.

Leading: The vertical spacing between lines of copy that is measured in point increments.

Logotype: The custom typographic rendering of the words and numbers, "United States Census 2000."

PANTONE®: See the current Pantone Color Standards book for color swatches and formulas. Pantone is a registered trademark of Pantone, Inc.

Point (pt.): A typesetting unit of measure used in specifying type size, leading and rule line thickness. There are 12 points to a pica and 72 points per inch.

Positive: Reproduction of an image which appears as a darker value than the background.

Reverse: Reproduction of an image which appears as a negative. Generally white with a darker background value.

Sans Serif: A typestyle with no serifs and little contrast between thick and thin strokes.

Tag Line: An approved phrase or slogan utilized for advertising and promotional purpose.

Value: The relative lightness or darkness of a particular shade or color.

The new U.S. Census Bureau visual identity consists of the emblem, the tagline, and the report cover system. The visual message of the identity and the thinking behind it represent characteristics we want to portray: clearly presented data; an ongoing stream of information which is timeless and easily understood. The official mission is “to be the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States.” Every aspect of the identity, from the size of the emblem to the typeface and colors used in reports, helps put forth these qualities.

The emblem is the cornerstone of our identity. As with data and statistics, the more consistently it is presented, the more effectively it will work. The tagline supports the emblem and straightforwardly spells out our message. The report cover system works with the emblem and tagline to present our publications as an associated body of work. While the report cover system is highly flexible, as demonstrated in this book, it has clearly defined guidelines for appropriate application. By careful adherence to these guidelines regarding the three elements of the system, we will maximize the benefits of our new visual identity.

The live art files associated with this standards manual can be found on the Administrative and Customer Services Division intranet site at www.acsd.census.gov ⇒ Publications, Printing, and Forms Design ⇒ Policies and Procedures ⇒ Guidelines for Census Publications (corporate "look and feel" standards) If you need further assistance, please contact Kim Ottenstein at 301-763-4400* or Greg Carroll at 301-763-4461*.

**These phone numbers will be active as of February 1. Until then, use the 457 exchange.*

Emblem

The preferred version of the emblem, as shown on this page and throughout this book, is our name “US CENSUS BUREAU” set in Lucida as one word in all upper case letters with equal letterspacing and no punctuation. The preferred presentation uses an alternating pattern of navy, blue, and purple letters. Our emblem represents a continuous flow of facts and data being communicated.

Preferred emblem

U S C E N S U S B U R E A U

Emblem

The integrity of the emblem must be preserved by allowing for an adequate amount of clear space. The clear space has been defined as a minimum of the height of the capital letter "U" in US Census Bureau. Don't allow any other elements, such as type, graphics, or photography to interfere with the visual impact of the identity. It is acceptable and often desirable, to create even more clear space around the emblem if space allows. (Please see page 1.09 for a detailed description on the acceptable uses of the emblem as a pattern)

Emblem With Tagline

The tagline is a phrase that supports the vision and mission of the U.S. Census Bureau. More than a slogan, the tagline – when used according to these guidelines – projects longevity and commitment which extends beyond the visual identity system to our perception as a provider of quality services and products.

The tagline has a specifically defined, locked up position and relationship to the emblem. While there are instances where the emblem may appear alone, the tagline never does. It always appears with the emblem on report covers and certain other applications. The tagline appears in Census Navy, flush left, a cap height down from the emblem.

Emblem

Preferred emblem with tagline

U S C E N S U S B U R E A U

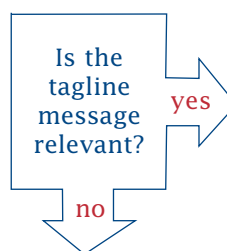

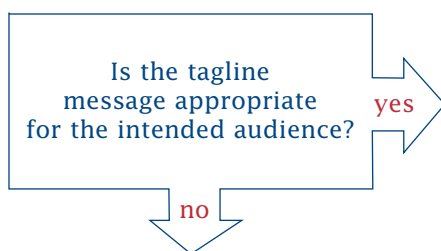

Helping You Make Informed Decisions

Tagline

As with the emblem alone, the integrity of the emblem with tagline must be preserved by allowing for an adequate amount of clear space around the configuration. As shown in the example on this page, a minimum clear space equal to the height of the “U” must be left around the emblem with tagline.

Usage of the tagline will depend on the issues illustrated below.

USE EMBLEM ONLY, TAGLINE CANNOT APPEAR WITHOUT EMBLEM.

Example: Internal documents, procedural memorandums, human resources communications

USE THE TAGLINE

Example: Advertising, promotional materials & report covers intended to increase awareness of the Census Bureau

Emblem Size

Standard sizes have been determined which establish the most effective presentation of the emblem. Business card, stationery, and report cover sizes are illustrated below. A 1" emblem for use on report cover spines is the smallest allowable size.

Report cover spine	<div>USCENSUSBUREAU</div> <div>1"</div>
Letterhead	<div>USCENSUSBUREAU</div> <div>2.25"</div>
Business card	<div>USCENSUSBUREAU</div> <div>2.5"</div>
Print system	<div>USCENSUSBUREAU</div> <div>2.75"</div>
Report cover	<div>USCENSUSBUREAU</div> <div>3.25"</div>

Emblem Variations

There are three variations of the emblem and an alternate version. The preferred version, in three colors, uses Census Blue, Census Navy, and Census Purple. In addition, there is the one-color version with tints and the one-color positive version. When the emblem is printed on a dark background, it may be reversed out in white (see Background Control, page 1.08).

The alternate emblem has been designed primarily for electronic communication; i.e. the World-Wide Web. The emblem has an embossed appearance; the letters appear in the same color as the background and are defined with shadows and highlights.

Preferred emblem

U S C E N S U S B U R E A U

one-color emblem with tints

U S C E N S U S B U R E A U

U S C E N S U S B U R E A U

U S C E N S U S B U R E A U

U S C E N S U S B U R E A U

one-color positive emblem

U S C E N S U S B U R E A U

RGB emblem

U S C E N S U S B U R E A U

one-color emblem white

U S C E N S U S B U R E A U

Alternate emblem

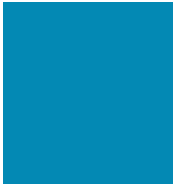

U S C E N S U S B U R E A U

Color

The preferred colors of our emblem are Census Blue, Census Navy, and Census Purple. These colors may be substituted with their Pantone®, CMYK or RGB equivalents.

As demonstrated later in this book, color is an important element in presenting our visual identity. Color usage on report covers may be a way to link reports of similar content or those from related areas. By using tints or lighter versions of Census colors, a wide variety of combinations is achievable.

RGB	R43, G51, B53	R128, G132, B133	R196, G196, B196
HEX	333333	777777	CCCCCC

The colors shown in this book are for example only and are not intended to match Pantone colors. See the current Pantone Color Standards book for color swatches and formulas. Pantone is a registered trademark of Pantone, Inc.

In lieu of the Census colors specified throughout this manual, you may use the RGB Hex Triplet colors referenced above, the standards for which are shown in the current edition of the RGB Hex Triplet Color Chart.

Background Control

The ideal background for the preferred emblem is white. When printing on a darker background, such as Census Purple, Census Navy, Census Red, or black, the emblem should be reversed to white. When printing on lighter backgrounds, such as Census Gray or Census Lime, it should be printed in black.

Acceptable background usage

U S C E N S U S B U R E A U

U S C E N S U S B U R E A U

U S C E N S U S B U R E A U

Unacceptable background usage

S C E S U B R E A

Do not use a background which is too dark and does not supply sufficient contrast.

U S C E N S U S B U R E A U

Do not use a background which is too light and does not supply sufficient contrast.

U S C E N S U S B U R E A U

Do not use a pattern which competes with the visibility of the emblem.

Emblem Patterns

The emblem may be used effectively to create background patterns as part of the U.S. Census Bureau visual system. The patterns must be horizontal as shown in the examples on this page. The emblem must still be legible and readable in standard English; it may not be backwards or upside down. The patterns are constructed using the one-color emblem with tints placed on a 30% background tint of the selected color.

Note that when the emblem is repeated in a pattern, the words are blended together, i.e., USCENSUSBUREAUSCENSUSBUREAU. The adjoining letter “U”s – the first at the beginning of “US” and the second at the end of “BUREAU” – are combined to eliminate repeated letters. The style remains all upper case, and equal letterspacing must always be maintained.

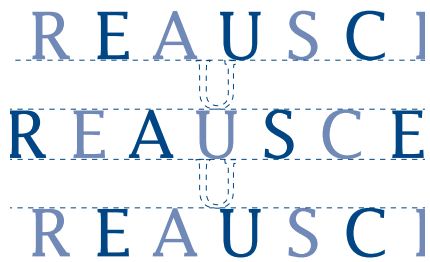

Diagram illustrating the construction of the emblem pattern, showing the words "REAU" and "SCIB" repeated, with a central "U" character indicating the blending of the words.

Pattern clear space

Census Blue Pattern

Census Navy Pattern

Census Purple Pattern

Alternate Emblem Pattern Census Gray

Typography

As well as being the selected typeface for the emblem, Lucida is also used for text on report covers, within reports, and on other applications such as stationery, etc.

The alternate font is Helvetica. It may be used for tables and charts, to support the main typeface. Helvetica is widely available in various weights and styles, such as bold or *italics*.

Unacceptable Usage

The basic purpose of these guidelines is to preserve the integrity of the emblem and the supporting systems elements. While this manual defines the ideal specifications and applications, which we must all strive to uphold, we are also providing examples of what not to do. While most likely well-intentioned, any alterations to the emblem will compromise its effectiveness. Please be guided by the standards set forth in this manual, and refrain from altering the emblem in any way. These examples are some of the most common mistakes that may be made.

~~USCensusBureau~~

Do not typeset the emblem. The typeface, type style and spacing of the characters may not be altered.

~~US.CENSUS.BUREAU~~

Do not add periods, lines, other punctuation or graphic elements to the emblem.

~~USCENSUSBUREAU~~

~~US CENSUS BUREAU~~

Do not alter the letterspacing by either moving them closer or further apart.

~~USCENSUSBUREAU~~

Do not place the emblem on an angle.

~~USCENSUSBUREAU~~

Do not change the colors in the emblem.

~~US
CENSUS
BUREAU~~

Do not modify or change the layout of the emblem in any way.

Our objective in adopting this new identity is to make sure that people know who we are and what we do. We want to communicate a clear and consistent message to all our audiences. Altering the visual look of the Census

Do not integrate into text.

~~CENSUSBUREAU~~

Do not use incomplete emblem.

~~USCENSUSBUREAU~~

Do not alter the color configuration.

~~USCENSUSBUREAU
Newsletter~~

Do not incorporate in other logos.

~~USCENSUSBUREAU~~

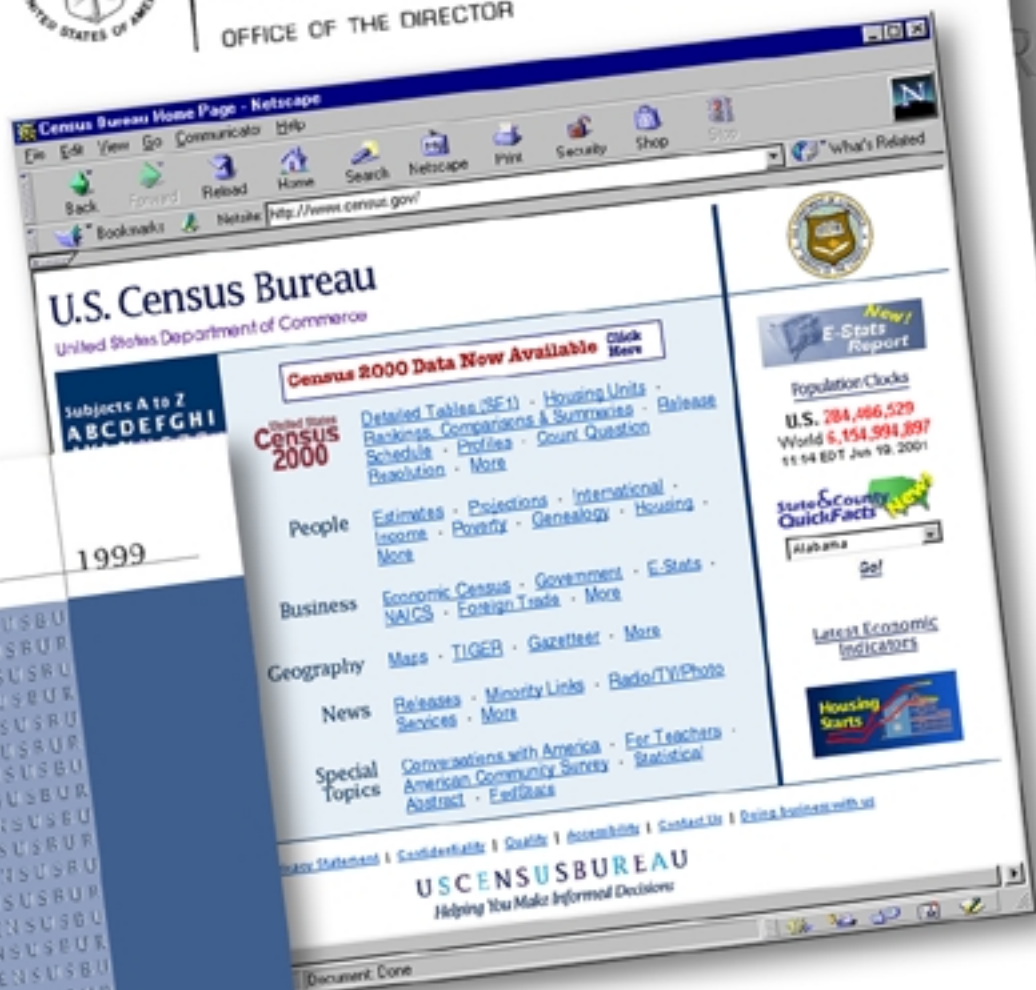

Do not place emblem on a busy background.

~~USCENSUSBUREAU~~

Do not enclose the emblem in a shape.

USCENSUSBUREAU

Introduction

The report cover system is one of the most important aspects of the new U.S. Census Bureau visual identity. As described in this section, the system is highly flexible and provides many engaging and workable options. With careful and consistent application of the system standards, we will be able to represent the attributes which we desire: integrity, consistency, and accuracy.

Through logical visual links between all our reports, we will increase the visibility, unify the perception, and update the image of the U.S. Census Bureau.

Specific details, as well as appropriate variations, are outlined and demonstrated in the chapter that follows.

Report Cover Grid System

As the basis of the report cover, the grid system ensures an organized and consistent presentation. The structure of the grid determines how and where the information on the cover is laid out. It dictates the location of all elements, including text, images, and logos. The grid, with its set positions for the different elements, may not be altered.

Exhibit shown at 50% of actual size

A. Report information panel:

The top part of the report cover is reserved for report information.

A1. Vertical divider

A2. Baseline

B. Program and author

information panel:

The center panel, divided into two sectors by the vertical separator, is reserved for program and author information.

C. Endorsement panel:

The bottom panel is reserved for the U.S. Census Bureau emblem and other endorsements. The emblem, the U.S. Department of Commerce endorsement, and the program name/logo are positioned in consistent locations.

Data Placement

Exhibit shown at 50% of actual size

Report information panel:

- A. Report title and date always sits on baseline, and may extend up to three lines.
- B. Issue/volume number appears above date of issue.
- C. Date of issue sits on baseline below issue/volume number.
- D. Report subtitle and/or series title appear on one line below report title and baseline.
- E. Series number appears below issue date.

Program and author information panel:

- F. Program title and program subtitle appear in the upper lefthand corner.
- G. Author name/s appear at the bottom of the program and author information panel, to the left of the vertical separator.
- H. The lower right portion of the program and author information panel is reserved for the primary program name when the primary program logo appears in the panel below it (L), or a secondary program name and/or logo.

Endorsement panel:

- I. U.S. Census Bureau emblem with tagline is always positioned in the top left of the endorsement panel.
- J. U.S. Department of Commerce endorsement always appears to the right of the emblem in the endorsement panel.
- K. The primary program logo or if there is no logo, the primary program name, is placed at the right of the endorsement panel. If there are both a name and a logo, the logo goes here, and the name is placed above in the program and author information panel. Taglines are not allowed in this panel. (L). If there is just a program name with no logo, it is positioned here.

The report cover system was created to provide a cohesive look and feel to the entire body of work we produce. This look and feel is iterated by the consistent placement of data on the report cover. On the cover, information is basically organized – and read – from top to bottom. In effect, it goes from the specific to the general, creating intrinsic meaning along the way.

Correct data placement on the grid is an important aspect of maintaining the report cover system. Placement may not be altered, although some information is optional. In addition, typography, type style, and type sizes may not be altered.

The grid shows the placement of various elements on a report cover. Labels A through K indicate specific data points and their positions:

- A:** Report Title
- B:** Issue
- C:** Issue date
- D:** Report Subtitle and Series Title
- E:** Series #
- F:** Program Title
- G:** Program Subtitle
- H:** Authors' name
- I:** U.S. Census Bureau emblem with tagline
- J:** U.S. Department of Commerce
- K:** Program Name or Program Logo

Report Title and Date

U.S. CENSUS BUREAU
Lucida Sans Roman 5.5pt/9pt, 10 tracking

Color Placement

Use of color is another important element in defining the report cover system. The appropriate application of the U.S. Census Bureau color palette will further help unify our reports. This page describes general guidelines for flexible use of color, and the following pages show just a few of the possible variations you can achieve.

Exhibit shown at 50% of actual size

- A. The report information panel is always white. This may not be altered for any reason or exception.
- B. The program and author information panel, divided into two segments by the vertical separator, may be filled with one or two solids or tints of a Census color.
- C. The endorsement panel may either be white or filled with a solid or tint of a Census palette color.

Report Title Report Title Report Title: Date <i>Report Subtitle and Series Title</i>		<i>Issue</i> <i>Issue date</i>
Program Title Program Title <i>Program Subtitle</i>	Authors' name Author's name	Program Name goes here when combined with Program Logo
U.S. CENSUS BUREAU <i>Helping You Make Informed Decisions</i>		U.S. Department of Commerce Economics and Statistics Administration U.S. CENSUS BUREAU

Imagery

Exhibit shown at 50% of actual size

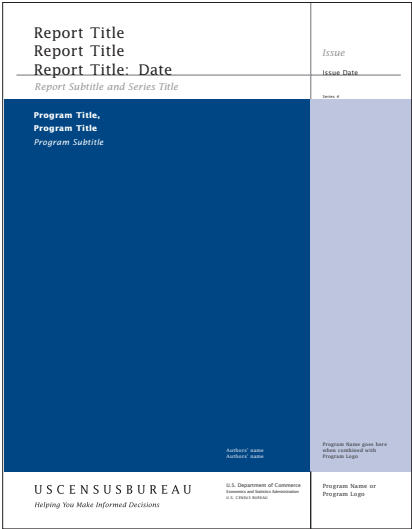

Imagery, such as illustration, photography, or other graphic treatment, may only be applied on the program and author information panel, which is divided into two segments by the vertical separator. Imagery may be contained in the left segment of the panel, or it may extend into the right side. When it extends into the right segment, the image color, the contrasting color, or the background color may change. See examples on the next few pages for both imagery and color variations.

Two colors are used in this example: Census Red and Census Gray. The colors extend all the way to the edge and "bleed" off of the page. The photograph is reversed in Census Gray, out of Census Red background. Tint of Census Red is in lower right of endorsement panel.

Report Cover Variations

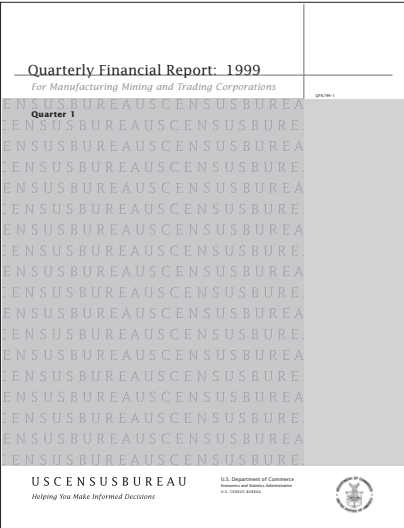

Exhibit shown at 25% of actual size

Two colors are used in this example: Census Navy Blue (solid and tint) and black.

Black and white, with no bleed. The shading is contained within grid parameters.

Black and white bleed, with an appropriate pattern created using the alternate emblem. Background color is light enough to allow program information to be printed in black. Much darker backgrounds might necessitate reversing the type to white.

Black and white with no bleed, with an illustration which fills the entire program and author information panel. Different colored backgrounds behind the illustration create a distinctive look.

Report Cover Variations

Exhibit shown at 25% of actual size

Two colors (black and Census Yellow) with bleed, filling the entire program and author information panel and extending into the endorsement panel. Tints of one color effectively communicate uniformity within the system. Type appears in black and remains legible against a light background.

One color, no bleed. No tints. Solid Census Blue is used for the panel, and all type prints in the same color, except for program and author information. This type is reversed to white, because of the dark background. It thus retains legibility.

Two colors with bleed. Census Lime and black are used with a graphic pattern. Icons are repeated to create a pattern, which appears in a lighter tint of the background color in the left segment of the program and author information panel. In the right segment, the colors are reversed. The tint alone is extended into the endorsement panel. Type still is legible in black over the light background color.

Two colors with bleed. Census Orange, Census Red, and tints thereof are combined. Type reverses to white, emphasizing contrast with the darker background.

Short Report

Exhibit shown at 50% of actual size

The short report cover is organized in a similar way to the basic report cover. However, the major difference is that the short report actually begins on the cover. Content, conveyed by either text and/or graphs is positioned on the cover, in the center panel. As with the basic report cover, a grid is provided for the short report cover format.

To allow for the most effective use of space, text appears in two columns (see modified text box below). When there is no program title, program subtitle, or series title, text starts at the top of the panel. Short reports, with an average page length of four, are three-hole punched.

Short Report Maps & Graphs

Exhibit shown at 50% of actual size

Maps and graphs, which are part of the report content, are the only types of imagery used on a short report cover. It is acceptable to combine the map or graph with text.

The map or graph is positioned in the left segment of the program and author information panel. This is to prevent distortion of the image and the information contained therein. For clarity of photocopying reproduction, the color behind the map or graph image should be a tint, not a solid color. The right panel should be a solid color.

Short Report With Map/Graph

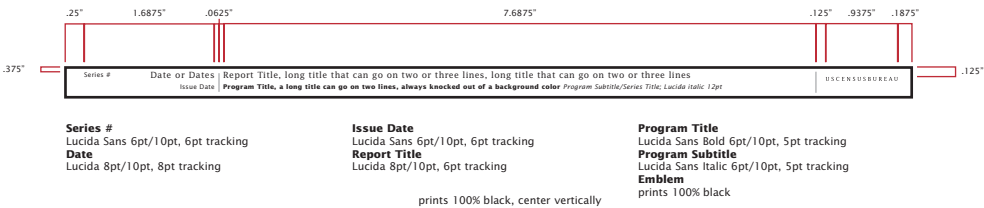

Spines

Exhibit shown at 45% of actual size

The report spine is divided into three sections which roughly correspond to the three sections of the report cover: the top section includes the report data, such as the series number and date, the middle encompasses the report and program title, and the US Census Bureau emblem always appears at the bottom. The spine sections are differentiated by either a hairline rule or by color. This should also coordinate with the cover.

The width of the spine will depend on the length of the report. If the report is a long one, the spine may be wide enough to accommodate additional information on a second line, such as the series title or program subtitle.

When the spine is wider than .375, the information may run to two lines. The information here is separated by a hairline.

When the spine is narrower than .375, the information must be contained on one line. The information here is delineated by color.

Dual Roster

Cover With Dual Roster (no wordmark)

INSTITUTIONAL CREDITS will appear in the endorsement panel, side by side and flush left with the report title

Introduction

The U.S. 2010 Census logo is the agency's most-used and best-known asset. It is the cornerstone of the 2010 Census program.

Because of its importance, great care must be taken in the use of the 2010 Census logo. The logo is presented in a consistent fashion, and its use must be governed by strict rules. If it is used haphazardly, the logo's value will be diminished.

Most uses of the 2010 Census logo will originate in various program design groups, but from time to time, 2010 Census workers outside of design groups are required to make judgments about the use of the 2010 Census logo, often relating to a one-time use. To facilitate consistency and quality in the use of the logo, among both professional and nonprofessional users, this manual has been prepared.

Exceptions to these guidelines are rare and must be approved by the Census 2010 Publicity Office (C2PO). Your assistance and cooperation in the protection of the 2010 Census logo is valued and appreciated.

Decennial Decision Memorandums

The logos in this guide were officially released by the U.S. Census Bureau. Census Bureau employees can access the following memos on the 2010 Census Portal:

- Release of the United States 2010 Census Logo Memo No. 2
- Release of the American Indian and Alaska Native (AIAN) 2010 Logo Memo No. 15
- Release of the Puerto Rico and Islands Areas 2010 Logos Memo No. 19

<p>No. 2 (2nd reissue)</p>		
MEMORANDUM FOR	Distribution	
From:	Preston Jay Waite <i>[signed]</i> Associate Director for Decennial Census	
Subject:	Revision to Official Program Names	
<p>This memorandum is being re-issued to document revisions to official program names relating to the next decennial census. One intent is to clarify differences between our existing budget subactivity name, the name for the overall effort, and the name for the 2010 Census component of that effort.</p>		
<ul style="list-style-type: none"> The official name for the overall effort is now the 2010 Decennial Census Program. Note that this is singular, not plural. This replaces the previous official name of Reengineered Census of Population and Housing. To be consistent with this change, we will change our official budget subactivity name from 2010 Decennial Census to 2010 Decennial Census Program. If possible we will make this change beginning with our FY 2007 budget request. This budget subactivity will remain within the "Demographic Statistics Programs" budget activity. When presenting information about the 2010 Decennial Census Program reengineering effort, there still will be times when it is important to differentiate between the three major components of that effort. In those situations, the following names should still be used: <ul style="list-style-type: none"> American Community Survey (ACS) MAF/TIGER Enhancements Program (MTEP) 2010 Census

2010 DECENNIAL CENSUS PROGRAM DECISION MEMORANDUM SERIES

No. 15

MEMORANDUM FOR Distribution

From: Preston Jay Waite *[signed]*
Associate Director for Decennial Census

Subject: 2010 Census American Indian and Alaska Native Logo

This memorandum is being issued to document the approved 2010 Census logo for the American Indian and Alaska Native population. This logo may be used for publications produced for the American Indian and Alaska Native population. The official logo appears below:

This is the same logo that was used in Census 2000, with "2010" added in place of "2000" and with a trademark (™) symbol. Divisions may add text and graphics (but not another logo) alongside or beneath this logo for the purposes of identifying specific components or operations in regards to the American Indian and Alaska Native population.

External users wishing to use the 2010 Census logo must register by calling the Census Bureau's Public Information Office at (301) 763-3691. Registered users will receive guidelines and graphical files for their use. In addition, registered users cannot share these files with other entities.

Memo No. 19

2010 Decennial Census Program Decision Memorandum Series

June 14, 2007

Memo No. 19

Subject: 2010 Census Logos for Puerto Rico, the U.S. Virgin Islands, Pacific Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands

The 2010 Census Decision Memo No. 19 is on the DMD Portal at <http://dscmoop2.decennial.census.gov:7778/portal/page/portal/2010censusplanninghome/dmd2010prg0000001/DMD2010MEM0000001/DMD2010MEM0000005/2010%20Decision%20Memo%2019.pdf>.

<p>July 31, 2007</p>		
<p>2010 DECENNIAL CENSUS PROGRAM DECISION MEMORANDUM SERIES</p>		
<p>No. 19 (Reissue)</p>		
MEMORANDUM FOR	The Distribution List	
From:	Teresa Angucira <i>[signed]</i> Associate Director for Decennial Census	
Subject:	2010 Census Logos for Puerto Rico, the United States Virgin Islands, Pacific Islands, Guam, American Samoa, and the Commonwealth of Mariana Islands	
Contact Person:	James Dinwiddie Decennial Management Division, (301) 763-1346 Assistant Division Chief for Communications	
<p>This memorandum is being reissued to indicate the correct color code of the 2010 Census Puerto Rico Logo; to add the previously approved 2010 Census Pacific Islands Logo on the memorandum attachment, and to provide the accurate issuance date of the American Indian and Alaska Native logo memo. The original memorandum illustrated the approved 2010 United State Census logos for Puerto Rico, United States Virgin Islands, Pacific Islands, Guam, American Samoa, and the Commonwealth of Mariana Islands. These are the same logos that were used in Census 2000, with "2010" added in place of "2000". No changes were made to any of the logos in the previous version of this memorandum.</p>		
<p>This memorandum documents the following changes:</p>		
<ul style="list-style-type: none"> The color code of the 2010 Census Puerto Rico logo was changed to indicate the correct code- Pantone 2613c. The previously approved 2010 Census logo for the Pacific Islands has been added to the attachment in Red and Black colors. The release date of the 2010 American Indian and Alaska Native Logo memo was changed to reflect the correct date - September 29, 2006. 		

Support Type Styles

This section describes the supporting type styles for the 2010 Census logo.

Type style consistency, particularly on 2010 Census logo application materials, is essential for projecting a cohesive public image and recognizable design style.

The Lucida type family as a serif type style and the Lucida Sans type family as a sans serif type style have been selected as the preferred support type styles for the 2010 Census identity system. These type styles should be used for all text on materials using the 2010 Census logo. Shown here is a selection of available weights and styles of the Lucida and Lucida Sans type families. Selection of the appropriate typography style within this family will be left to the discretion of the art director or project manager.

2010 Census Logo Standards

3.1

2010 Census Logo

The 2010 Census logo consists of the words “United States 2010 Census,” as a stand alone or coupled with the 2010 tagline “It’s In Our Hands” displayed in the specific fonts that were created for this logo. No other font can be used to build the logo.

When the 2010 Census logo is used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the word Census) away from illustrations, photographs, rules, page edges, or other type.

United States®
Census
2010

IT'S IN OUR HANDS

2010 Census Colors

The 2010 Census logo is limited to two developed colors, Census red and black.

2010 Census black

Black

C: 0.0
M: 91.0
Y: 72.0
K: 23.5

* The colors shown in this book are for example only and are not intended to match PANTONE® colors. See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Positive and Reverse Logos

Although the preferred use of the logo is Census red or black on a white or light background, there may be a need, from a design standpoint, to use the logo in a reversed format. Attention must then be given for the logo to be clearly readable. Background colors that are dark enough to provide adequate contrast should be used.

As a general rule, mid-range (55 percent) or less color saturation should be avoided since there is not enough contrast for effective logo use.

When a positive logo is used on a color background, such as colored paper stock, the logo will appear in Census red or black, whichever offers the most contrast between the stock and the logo.

Positive logos

Reverse logos

Positive Logos with Tagline

Reproduction Sizes

The logo should not be used so small that the readability or reproduction quality is reduced.

A solid positive logo or reverse logo should be no smaller than 5/8" wide. See example below. Make sure the line screen is 133 or finer. If you want to use a coarser screen, make sure the logo is no smaller than 3/4" wide.

If a logo smaller than 5/8" is required, it must be approved by the Census 2010 Publicity Office (C2PO).

*Examples of
solid positive logos*

*Examples of
solid reverse logos*

Unacceptable Logo Usage

Do not enclose the logo or the logo type in other shapes.

Do not violate the logo clear zone.

Do not place logo over complex backgrounds.

Do not add or change typeface of logo type.

Do not abbreviate logo typeface or add other words.

Do not alter color from accepted standards.

Do not alter size or proportions of elements within the logo.

Do not use the logo without the 2010.

American Indian and Alaska Native (AIAN) Logo Standards

4.1

AIAN Logo

The AIAN logo consists of the words “United States 2010 Census” with two feathers encircling the words, displayed in the specific fonts that were created for this logo. No other font can be used to build the logo. This logo is for use on products and materials created for the AIAN population. The AIAN logo should never be used together with the 2010 Census logo on any material.

When the AIAN logo is used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the outside of the circle created by the feathers) away from illustrations, photographs, rules, page edges, or other type.

Circles can be used in place of the “s” for measuring spacing around the logo, as long as the circles are the same height as the “s” as illustrated.

AIAN 2010 Logo Colors

The AIAN 2010 logo is limited to two developed colors, Census red and black, as defined earlier in this style guide.

Coated and uncoated paper stock swatches of the AIAN 2010 colors are provided in the back of this manual.

AIAN 2010 Logo Color Combinations

The AIAN 2010 logo combinations are to be used in the manner shown below only, solid black or red words and black feathers.

The logo can also be used in reverse, as solid white only, with a background no lighter than 60 percent color saturation.

Positive logos

Reverse logos

Unacceptable Logo Usage

Do not violate the logo clear zone.

Do not place logo over complex backgrounds.

Do not alter position of the feathers.

Do not add or change typeface of logo type.

Do not abbreviate logo typeface or add other words.

Do not alter color from accepted standards.

Do not alter size or proportions of elements within the logo.

Do not use the logo without the 2010.

Puerto Rico Logo Standards

5.1 English Version

5.1.1 2010 Census Puerto Rico Logo

The 2010 Census Puerto Rico logo consists of the words “2010 Census Puerto Rico,” as stand alone or coupled with the 2010 tagline “It’s In Our Hands” displayed in the specific fonts that were created for this logo. No other font can be used to build the logo.

When the 2010 Census Puerto Rico logo is used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the word Census) away from illustrations, photographs, rules, page edges, or other type.

* The colors shown in this book are for example only and are not intended to match PANTONE® colors. See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Positive and Reverse Logos

Although the preferred use of the logo is 2010 Census Puerto Rico purple or black on a white or light background, there may be a need, from a design standpoint, to use the logo in a reversed format. Attention must then be given for the logo to be clearly readable. Background colors that are dark enough to provide adequate contrast should be used.

As a general rule, mid-range (55 percent) or less color saturation should be avoided since there is not enough contrast for effective logo use.

When a positive logo is used on a color background, such as colored paper stock, the logo will appear in Census purple or black, whichever offers the most contrast between the stock and the logo.

Asian Language Logo Standards

7.1

2010 Census Asian Language Logos

To make the 2010 Census more readily understandable to those audiences unfamiliar with the census due to language barriers or country of origin, the 2010 Census logo has been translated for some of the Census Bureau's Asian Language target markets.

When one of the Asian Language 2010 logos are used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo's importance unless it's being coupled with the 2010 tagline "It's In Our Hands". One good general rule is that the logo be one "s" height (from the word Census) away from illustrations, photographs, rules, page edges, or other type.

These are both examples of some Asian Language 2010 logos.

Although the preferred use of the logo is Census red or black on a white or light background, there may be a need, from a design standpoint, to use the logo in a reversed format. Attention must then be given for the logo to be clearly readable. Background colors that are dark enough to provide adequate contrast should be used.

As a general rule, mid-range (55 percent) or less color saturation should be avoided since there is not enough contrast for effective logo use.

When a positive logo is used on a color background, such as colored paper stock, the logo will appear in Census red or black, whichever offers the most contrast between the stock and the lo.

These are examples of some Legacy Language 2010 positive logos.

In-Language Logo Standards

10.1

2010 Census In-Language Logos

In February 2009, the American Recovery and Reinvestment Act of 2009 provided additional funds that allowed the creation of 14 additional In-Language logo to be used to target minority markets.

To make the 2010 Census more readily understandable to those audiences unfamiliar with the census due to language barriers or country of origin, the 2010 Census logo has been translated for some of the Census Bureau's minority in-language audiences.

When one of the In-language 2010 logos is used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo's importance unless it's being coupled with the 2010 tagline "It's In Our Hands". One good general rule is that the logo be one "s" height (from the word Census) away from illustrations, photographs, rules, page edges, or other type.

These are both examples of some In-Language 2010 logos with tagline.

Business Card Guidelines

A format has been designed for the Census Bureau that contains the 2010 Census logo along with the Census Bureau wordmark. In addition, a format has been designed for the AIAN logo with the Census Bureau wordmark. This is the set format for the Census Bureau and its subsidiaries and must not be deviated from. For specifications of logos, type styles, and type sizes, refer to the Census Bureau's Corporate Identity guidelines. The specific tag line will be added in future editions.

AIAN RO standard 2010

Footnote: All other Census Bureau Stationery, i.e., letterhead, envelope, fax coversheets, must follow the guidelines set by the Census Bureau's Corporate Identity guidelines. See the Census Bureau's Web site at http://www.acsd.census.gov/services/Publications_Printing_and_Graphics_Design_Services/ppf_home.htm and www.lighthousestore.org for more information.

Marketing and Advertising

Like print advertising, brochure, factsheet, and poster design will always require a wide range of design and layout solutions in order to meet ever-changing communication requirements. Specific design standards, typesetting specifications, and other guidelines used by many other print applications in this manual will not apply. However, it is essential that all logos use guidelines discussed in sections 2.0 and 3.0 of this manual be followed to ensure effective and proper use of identity.

Always establish the minimum clear zone around the logo as diagrammed on page 10. The logo should be positioned so that it complements the overall ad layout. A tastefully sized logo should be used. Oversizing should be avoided.

The logo should appear in full color whenever possible. Four-color process reproduction will likely be used in print advertising. Always use the four-color process formulas provided on page 11 of this manual.

Building Partnerships

United States 2010 Census

Your help is essential

In preparation for the 2010 U.S. Census, the U.S. Census Bureau selected Texas County as one of only two sites for the 2006 Census Test. With its reputation as a leading economic, its rapidly growing and diverse population, and its variety of housing, Texas County is an ideal testing ground for the Census Bureau.

Partners building the Census Bureau needed a successful Texas 2006 Test, and we will again need our partners' help to ensure Texas's successful completion of the 2006 Census Test.

Local government, community organizations, businesses, and the media in Texas County can help prepare for the 2006 Census Test and encourage every one to participate.

What you can do:

- Local government, community organizations, and neighborhood groups can:
- Recruit census workers.
- Display and distribute census materials.
- Provide training and housing census employees.
- Provide information about the 2006 Census Test, including information about the 2006 Census Test on multilingual and multiracial.
- Display a map of the area included in the test.

The Media can:

- Publicize census activities.
- Obtain space for public service announcements.
- Provide coverage of census activities.
- Include test message personalities in local news and other promotional activities.

Businesses can:

- Display and distribute census materials.
- Provide information about the 2006 Census Test.

United States Census 2010

Your help is essential

In preparation for the 2010 Census, the U.S. Census Bureau selected Train County as one of only two sites for the 2006 Census Test. With its reputation as a technology and innovation center, Train County is well positioned to lead in the use of technology and in the safety of housing. Train County is an ideal testing ground for the 2006 Census.

Partners helped the Census Bureau understand the unique needs of Train County and we will again need our partners' help to help Train County successfully complete the 2006 Census Test.

Local governments, community organizations, businesses, and the media in Train County can help spread the word about the 2006 Census Test and encourage everyone to participate.

What you can do

- **Local government organizations, and neighborhood groups:**
 - Recruit census workers.
 - Display maps and brochure.
 - Display materials, such as training materials, and training materials for testing and training census employees.
 - Encourage residents to participate in the 2006 Census Test.
- **Businesses:**
 - Display and distribute census materials to encourage residents to participate in the 2006 Census Test.

The Media can:

- Publicize information about the 2006 Census Test.
- Give out free public service announcements.
- Broadcast coverage of census activities and operations.
- Assist local media personalities to take part in the census promotional activities.

Factsheet Cover Examples With the 2010 Census Logo Alone

Children Dora Spanish Factsheet

¡Dora te recuerda que debes incluir a todos los pequeños exploradores en el Censo del 2010!

Los niños no se han contado correctamente en cada censo desde el primero en el 1790. Por favor, recuerda incluir a todos sus niños al completar el cuestionario del Censo del 2010.

¿Qué es el Censo de los Estados Unidos?
Cada 10 años, el gobierno reporta el número de personas que viven en los Estados Unidos llevando a cabo un censo llamado censo. Este censo es requerido por la Constitución de los Estados Unidos.

¿Quién debe ser contado?
Todo el mundo, incluyendo a los bebés. Todos los bebés, niños y adultos que viven en un hogar deben ser contados, independientemente de su nacionalidad, ciudadanía, raza, edad o sexo. Si usted tiene un bebé o niño pequeño en su hogar, asegure incluirlo en el censo.

¿Por qué es importante el censo?
Los datos del censo se utilizan para determinar el número de representantes que le corresponden a su estado en el Congreso de los Estados Unidos, así como la representación de su comunidad en la legislatura estatal. Los datos también se utilizan para distribuir más de \$400 mil millones en fondos federales cada año a las comunidades para establecer y mejorar las escuelas, los hospitales, las carreteras y los servicios para ancianos.

Community Factsheet

The U.S. Census Bureau is issuing a call to action for every resident of our nation: **"BE COUNTED IN 2010."**

The Census: A Snapshot

- What:** The census is a count of everyone residing in the United States.
- Who:** All U.S. residents must be counted—people of all races and ethnic groups, both citizens and non-citizens.
- When:** Census Day is April 1, 2010. Questionnaire responses should represent the household as it exists on this day. More detailed socioeconomic information will be collected annually from a small percentage of the population through the **American Community Survey**.
- Why:** The U.S. Constitution requires a national census once every 10 years. The census will show state population counts and determine representation in the U.S. House of Representatives.
- How:** Census questionnaires will be delivered or mailed to households via U.S. mail in March 2010; many households will receive a replacement questionnaire in early April. Census workers also will visit households that do not return questionnaires.

A Complete Count: The Importance of Census Data

- Every year, the federal government can allocate more than \$400 billion to states and communities based, in part, on census data.
- Census data can be used for writing grant proposals.
- Community planners and governments rely on census data to determine where there is a need for additional social services and funding.
- Census data can help you estimate the number of potential volunteers in your community and the number of residents who may need your services.

2010 Census Questionnaire: Quick, Easy and Confidential

- With only 10 questions, the 2010 Census questionnaire is one of the shortest questionnaires in history and takes just 10 minutes to complete.
- By law, the Census Bureau cannot share an individual's census questionnaire responses with anyone, including other federal agencies and law enforcement entities.

THE 2010 CENSUS IS IMPORTANT.

It determines the distribution of more than \$400 billion annually of government funding for critical community services. It generates thousands of jobs across the country. And it impacts your voice in Congress.

YOU CAN MAKE A DIFFERENCE.

As an influential community-based organization leader, you can ensure the people you represent are fully counted. With your help, the Census Bureau will continue to produce accurate data, which will directly affect the quality of life in your community.

The 2010 Census logo should always appear to the left of the 2008 Census Dress Rehearsal title.

These are examples of 2010 Census logo placement on 2008 Dress Rehearsal materials.

This example shows the 2010 Census logo (United States Census 2010) placed to the left of the 2008 Dress Rehearsal title. The form header includes the U.S. Department of Commerce, Economics and Statistics Administration, U.S. Census Bureau logo. Below the title, it states: "This is the official form for all the people at this address. It is quick and easy, and your answers are protected by law." A blue arrow points to the start of the form with the text "Use a blue or black pen. Start here". To the right, instruction 5 reads: "Please provide information for each person living here. Start with a person living here who owns or rents this house, apartment, or mobile home. If the owner or renter lives somewhere else, start with any adult living here. This will be Person 1. What is Person 1's name? Print name below."

This example shows the 2010 Census logo (United States Census 2010) placed to the left of the 2008 Dress Rehearsal title. The form header includes the U.S. Department of Commerce, Economics and Statistics Administration, U.S. Census Bureau logo. Below the title, it states: "2008 Dress Rehearsal Transitory Location Questionnaire". A blue button labeled "ADDRESS INFORMATION" is centered below the title. Below the button, there are input fields for LCO, State, County, and Block.

This example shows the 2010 Census logo (United States Census 2010) placed to the left of the 2008 Dress Rehearsal title. The form header includes the U.S. Department of Commerce, Economics and Statistics Administration, U.S. Census Bureau logo. Below the title, it states: "2008 Dress Rehearsal". A line of text reads: "This envelope contains your official United States 2008 Dress Rehearsal questionnaire." Below this, there is a "FOR" label and a large arrow pointing right. At the bottom, a small note states: "The Census Bureau is conducting the 2008 Dress Rehearsal. To ensure the accuracy of this Dress Rehearsal, it is important that everyone be counted. Please complete the enclosed questionnaire. Put the completed form in this envelope, seal, and..."

This example shows the 2010 Census logo (United States Census 2010) placed to the left of the 2008 Dress Rehearsal title. The form header includes the U.S. Department of Commerce, Economics and Statistics Administration, U.S. Census Bureau logo. Below the title, it states: "2008 Dress Rehearsal". A line of text reads: "This memorandum is intended for internal Census Bureau use only. If you have any questions regarding the use or dissemination of this information, please contact James L. Dinwiddie, Assistant Division Chief for Communications, Decennial Management Division, at (301) 763-3770." Below this, the date "February 8, 2006" is listed. The title "2010 CENSUS TEST MEMORANDA SERIES" is followed by "Chapter: 2008 Census Dress Rehearsal" and "No. 1". The memorandum is for the "Distribution List" and is from "Frank A. Vitano [signed], Chief, Decennial Management Division". The subject is "Official Titles for the Dress Rehearsal Scheduled for 2008". The memorandum documents the official titles of the program, sites and local census offices for the Dress Rehearsal scheduled for 2008. As of the date of this memorandum, please use these titles on all printed materials. Materials that were previously printed before this announcement with other than the official titles shown below may continue to be distributed until such quantity is exhausted. The official program name is "United States 2008 Census Dress Rehearsal" and "2008 Census Dress Rehearsal". The site/activity names are "The 2008 Census Dress Rehearsal of San Joaquin County, California" and "The 2008 Census Dress Rehearsal of Fayetteville and Eastern North Carolina". The local census office names are "Stockton Local Census Office" and "Fayetteville Local Census Office". Please refer any questions or concerns to Jim Dinwiddie or Pamela White on 301-763-3770.

2010 Census Public Use Forms

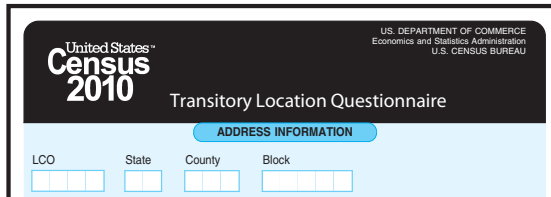

Questionnaire and Report

2010 Census Logo With Questionnaire and Report

The 2010 Census logo should always appear at the top and left of the questionnaire.

The image shows the top header of a 2010 Census questionnaire. On the left is the "United States Census 2010" logo. To its right, text reads: "This is the official form for all the people at this address. It is quick and easy, and your answers are protected by law." In the top right corner, it says "U.S. DEPARTMENT OF COMMERCE Economics and Statistics Administration U.S. CENSUS BUREAU". Below the logo, a blue arrow points right with the text "Use a blue or black pen. Start here". To the right of the arrow, question 5 is partially visible: "5. Please provide information for each person living here. Start with a person living here who owns or rents this house, apartment, or mobile home. If the owner or renter lives somewhere else, start with any adult living here. This will be Person 1. What is Person 1's name? Print name below."

The image shows the top header of a "Transitory Location Questionnaire" for the 2010 Census. On the left is the "United States Census 2010" logo. To its right, text reads: "U.S. DEPARTMENT OF COMMERCE Economics and Statistics Administration U.S. CENSUS BUREAU". Below the logo, the title "Transitory Location Questionnaire" is centered. Underneath the title is a blue button labeled "ADDRESS INFORMATION". Below the button, there are four input fields labeled "LCO", "State", "County", and "Block", each with a small grid of boxes for digits.

English and Bilingual Questionnaire Examples

The image displays two versions of the 2010 U.S. Census questionnaire forms. The left form is the English version, and the right form is the Bilingual English/Spanish version. Both forms are titled 'United States Census 2010' and include instructions for use, such as 'Use a blue or black pen' and 'Start here'. The forms are divided into sections for different types of housing (e.g., 'In this house, apartment, or mobile home') and 'Institutions and other places'. The English form includes questions about the number of people living in the household, the sex of the person, the date of birth, the race, and the telephone number. The Bilingual form includes similar questions in Spanish. Both forms include a 'U.S. Census Bureau' logo and a 'Form DX-1 (8-2007)' label.

U.S. CENSUS BUREAU

March 17, 2008

Dear Resident:

The U.S. Constitution requires that a census of the United States be conducted every 10 years. To prepare for the 2010 Census, the U.S. Census Bureau is conducting the 2008 Census Dress Rehearsal. The results will be used to develop better methods that will make the 2010 Census easier, more convenient, and less costly for taxpayers.

It is important that everyone be counted, regardless of where they may be living at the time of the census. This Individual Census Report is to be used to count people who are currently living or staying in group quarters, such as college or university dormitories, nursing homes, group homes, emergency and transitional shelters for people experiencing homelessness, and other such locations.

Your answers are confidential. That means the Census Bureau cannot give out information that identifies you. Your survey answers will only be used for statistical purposes, and for no other purpose. As allowed by law, census forms become public after 72 years (Title 44, United States Code, Section 2108).

Please follow the instructions you were given when you received this form for returning it to the appropriate person.

Sincerely,

Charles Louis Kincannon
Director, U.S. Census Bureau

**Thank you for completing your official
2008 Census Dress Rehearsal form.**

FOR OFFICIAL USE ONLY

G2 Control Number

A. PN _____ B. JIC1 _____ C. JIC2 _____

The U.S. Census Bureau estimates that, for the average respondent, this form will take about 5 minutes to complete, including the time for reviewing the instructions and answers. Send comments regarding this burden estimate or any other aspect of this burden to: Paperwork Reduction Project (0607-0019-019-019), U.S. Census Bureau, 4600 Silver Hill Road, AMSB-9K108, Washington, DC 20233. You may e-mail comments to Paperwork@census.gov; use "Paperwork Project 0607-0019-019-019" as the subject.

Respondents are not required to respond to any information collection unless it displays a valid approval number from the Office of Management and Budget.

U.S. Census Bureau Wordmark

17.1

Wordmark Guidelines

The preferred version of the wordmark is shown on this page. The preferred presentation uses an alternating pattern of navy, blue, and purple letters. The wordmark may appear as all black or reversed out of a color. Single-color versions of the wordmark are also permitted, particularly in 1- or 2-color printed products. Our wordmark represents a continuous flow of facts and data being communicated.

U S C E N S U S B U R E A U

Wordmark

The integrity of the wordmark must be preserved by allowing for an adequate amount of clear space. The clear space has been defined as a minimum of the height of the first element in the wordmark, the capital letter “U.” Do not allow any other elements, such as type, graphics, or photography to interfere with the visual impact of the identity. It is acceptable and often desirable to create even more clear space around the wordmark if space allows.

Wordmark With Tagline

The tagline is a phrase that supports the vision and mission of the U.S. Census Bureau. More than a slogan, the Census Bureau's corporate tagline—when used according to these guidelines—projects longevity and commitment that extends beyond the visual identity system to our perception as a provider of quality services and products.

The corporate tagline has a specifically defined position and relationship to the wordmark. While there are instances where the wordmark may appear alone, the corporate tagline never does. It always appears with the wordmark when data is released to the general public and may appear on certain other applications such as marketing materials. The corporate tagline appears in Census navy, flush left, a cap height down from the wordmark.

As with the wordmark alone, the integrity of the wordmark with corporate tagline must be preserved by allowing for an adequate amount of clear space around the configuration. As shown in the example on this page, a minimum clear space equal to the height of the capital letter “U” must be left around the wordmark with the corporate tagline.

The 2010 Census Website has been designed to provide the public a virtual real-time experience about the 2010 Census and related activities. Covering topics such as: How it Works, Census in the Schools, Protecting your Information, and many more.

Logo Application Process

Use of the 2010 Census Logo

USE OF THE 2010 CENSUS LOGO

The logo, United States Census 2000, became the visual cornerstone of the Census 2000 program. Due to its popularity, the Census Bureau decided to modify that logo for use during the 2010 Census. The 2010 Census logo may be used to help promote the 2010 Census and the tests to prepare for the census.

Care must be taken in the use of the 2010 Census logo. The logo must be presented in a consistent fashion, and its use must adhere to U.S. Department of Commerce guidelines. If it is used haphazardly, the logo's value will be diminished. The Census Bureau has prepared guidelines to facilitate consistency and quality in the use of the logo. The use of the logo cannot appear to endorse or show favoritism toward the requesting organization. The Census Bureau reserves the right to revoke the privilege of using the 2010 Census logo should its use be found inappropriate or in violation of these guidelines. The Census Bureau reserves the right to control the quality of the use of the 2010 Census logo. Permission to use the logo is not assignable.

Those wishing to use the 2010 Census logo should visit <www.census.gov> and click the 2010 Census Logo or 2010 Census link and it will take you to the 2010 Census Web page.

Glossary of Terms

Address block: The block of typeset copy that contains mailing information and/or telephone numbers and any additional access information.

Corporate colors: Census red and black (see Section 3.2).

Flush left, rag right: A typographic specification where copy will appear aligned on the left and will break naturally between words on the right.

Leading: The vertical spacing between lines of copy that is measured in point increments.

Logo type: The custom typographic rendering of the words and numbers, “United States 2010 Census.”

PANTONE®: See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Point (pt.): A type setting unit of measure used in specifying type size, leading, and rule line thickness. There are 12 points to a pica and 72 points per inch.

Positive: Reproduction of an image that appears as a darker value than the background.

Reverse: Reproduction of an image that appears as a negative. Generally, white with a darker background value.

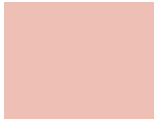

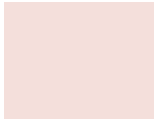

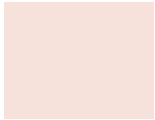

Sans serif: A type style with no serifs and little contrast between thick and thin strokes.

Tagline: An approved phrase or slogan utilized for advertising and promotional purposes.

Value: The relative lightness or darkness of a particular shade or color.

A MESSAGE FROM THE DIRECTOR

Dear colleagues and associates:

I am pleased to introduce an updated version of the U.S. Census Bureau's brand and corporate identity guidelines and style guide. The previous style guide, released in Fiscal Year 2011, introduced our new logo and updated the styles, typefaces, and color palettes for the many information products we produce. This new document, which is posted on our intranet site, provides additional standards and guidelines.

Some of the new components of this style guide include:

- New templates for factsheets, news releases, newsletters, and brochures.
- Guidelines for report covers, spines, and title and acknowledgement pages.
- Logo placement of social media icons and QR (Quick Response) codes.

Throughout the next year, we will provide additional updates to the style guide that will include guidelines for on-line and social media products, in addition to corporate messaging, stock images, and more. This will help to ensure we have a consistent look and feel across all communications channels.

As you review this new guide, I ask your assistance in adopting the guidelines and implementing them to help ensure a consistent and contemporary look to the Census Bureau brand.

Sincerely,

Robert M. Groves
Director, U.S. Census Bureau

INTRODUCTION

About Our Brand

In accordance with the U.S. Constitution, the first census was taken in 1790. In 1810, the third Decennial Census included questions about the nation's economy. Data on 220 kinds of manufactured products were collected in 25 broad categories. By the 1840 Census, data on manufacturing, mining, and fisheries were collected; retail trade, wholesale trade, construction industries, and many other sectors were added over the years.

In 1902, the Census Bureau was established as a permanent federal agency, and the first quinquennial (every 5 years) economic census cycle began. In 1967, the present economic census schedule (years ending in “2” and “7”) was established. Today, we conduct more than 200 annual surveys that have become world-renowned as key indicators of the United States' economic stability.

Today's world demands faster, cheaper, and better information around the clock. With increased online usage and emerging technological trends, it is even more critical that the importance and relevance of the Census Bureau be ever present in people's hearts and minds.

This is why we are exploiting the success of the recent 2010 Census Integrated Communications Campaign. We are leveraging the \$380 million recently invested in public relations and new media to help maintain the people's trust and recognition that were achieved based upon successful logo-anchored outreach.

With this new branding effort, we also are implementing consistent “one voice” messaging and a holistic look and feel across all media channels and programs to dispel questions that people often ask—“What do you do the other 9 years?”

And, the brand will now include new taglines that reflect the relevance and scope of all of our work: “Measuring America—People, Places, and Our Economy” that bring us back to our roots.

Brand and Corporate Identity Standards

The Census Bureau's best known assets are its public image, name recognition, and reputation as the renowned leader in statistical methodologies and valued data collections about our nation's people, places, and economy. In the end, they affect how the American public responds to our communications and programs. These are the cornerstones of our brand and corporate identity standards.

Because of the importance of a strong visual identity that helps us project our relevancy—a corporate image that accurately reflects who we are and what we do—we have taken great care in the development and implementation of these guidelines to present the brand in a consistent fashion and to govern the corporate identity standards by strict rules. If our use of these standards is haphazard, our renowned brand will be diminished. These guidelines have been prepared to facilitate consistency and quality in the use of the logo and taglines among both professional and nonprofessional users.

Exceptions to the guidelines are rare and must be approved by the Census Bureau's Brand and Corporate Identity Standards Team. Your assistance and cooperation in the protection of the Census Bureau's name and image is valued and appreciated.

Section 1.3

Components of Brand and Corporate Identity Standards

An affluent and well-integrated brand and corporate identity fosters increased public recognition and relevance. An integrated brand (and associated identity standards) transcends any single element and includes all channels of communication and forms of media and messaging distributed by the agency.

To help us achieve this goal:

- Executive staff champions the importance of brand and corporate identity standards.
- The Census Bureau has demonstrated its ability to implement change efficiently and effectively when given a mandate to do so.
- In-house communications and publishing staffs are capable, experienced, and willing to enforce and maintain design and communication standards.
- Successful implementation hinges on a balance of standards to provide the framework and clear parameters for design, with flexibility and creativity to enable customization of at least some components of the identity standards.

Section 1.3.1

Members of the Brand and Corporate Identity Standards Team

Stephen L. Buckner (Chair)	Chief, Center for New Media and Promotions
Jeri Green	Chief, Office of External Stakeholder Engagement
Francis Grailand Hall	Chief, Administrative and Customer Services Division
Kendall B. Johnson	Chief, Customer Liaison and Marketing Services Office
Fern Bradshaw	Assistant Division Chief, Field Division Partnership and Data Services
Stanley J. Rolark	Chief, Public Information Office

Section 1.3.2

Elements

The main goal of the style guide is to bring consistency to our brand and corporate identity by creating a common, shared “look and feel” that reaches across the spectrum of directorates to reinforce our messaging, while promoting the Census Bureau and improving our corporate culture.

Building upon the April 2011 version, the guide incorporates modifications to business cards and e-mail signatures, presentation templates, and marketing and advertisement packages. Now, included for the first time is information on the report-cover-grid-system, booklets and brochures, and other products such as letterhead usage, posters, post cards, CD/DVDs, and factsheets.

An updated list of style guide elements, planned for later in 2012, will incorporate guidelines on:

- Data Visualization
- Charts and Graphs
- Web Releases
- Social Media
- Corporate Language and Messaging
- Plain Language Guidelines
- Stock Visuals
- Video Inventory

By invigorating the image of the Census Bureau and utilizing the most effective visual presence, we will preserve our reputation as trustworthy, technologically sophisticated, and efficient. Incorporating our new look and feel into your everyday Census Bureau activities will help us achieve our overall goal of “Measuring America—People, Places, and Economy.”

Section 1.4

Brand Strategy

The Census Bureau has a mandate to measure America’s people, places, and economy. In fact, it is the only organization that has the authority to conduct such in-depth, truly objective, broad-based surveys and it must do so while protecting individuals’ confidentiality.

Accomplishing these tasks is critical to forging important policy and business decisions at all levels. Moreover, the Census Bureau’s official mission is “to be the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States.”

To achieve our mission, we must maintain our relevance and recognition in and among the general public, Congress, government, academia, businesses, professional associations, national statistical organizations, and with our advisors and partnering organizations.

Section 1.4.1

Goals

The Census Bureau is one of the most prominent federal government agencies in the eyes of Congress, our partners, stakeholders, the media, businesses, academia, and the general public. As such, our reputation depends on the strength and value of our brand and visual identity. After reviewing lessons learned from the recent 2010 Census undertakings, we determined that the new visual identity that had effectively communicated across multiple channels and venues over the past couple of years to achieve a successful census needed to leverage this investment in its brand and corporate messaging to maintain the Census Bureau’s prominence and reputation as:

- Trustworthy and confidential
- Technologically sophisticated
- Efficient and effective in its mission
- Sensitive to the various constituencies it serves
- A pace-setting statistical agency with international impact

Section 1.4.2

Objectives

The Director of the Census Bureau asked communications and graphics specialists, as caretakers for the Census Bureau's image across all print, Web, and media relations messaging to:

- Refresh the brand and corporate identity standards to invigorate the image and the Census Bureau's relevance as the leader of official U.S. statistics methodologies and valued data collections.
- Maintain the most effective visual presence of the Census Bureau's core identity to serve as the organization's long-term corporate brand.
- Maintain standards for graphic and visual presence that reinforce the Census Bureau as the bearer for the national and international statistical organization category.
- Exploit the increased visibility and recognition recently achieved.
- Best embody a timely, relevant, and quality look and feel.
- Better benefit and promote all communications and activities conducted by the Census Bureau.

Section 1.5

Census Bureau's Branded Name

Except for the Bureau of the Census seal (used only on official and legal documents), we will refer to ourselves as the U.S. Census Bureau or the Census Bureau. For external communications, in the first reference to the agency only, use "U.S. Census Bureau"; on all subsequent references within the communication, use "Census Bureau." For internal communications, always use "Census Bureau." Never use "the Bureau" or "Census" as stand alones when referring to the agency or its programs and work.

As mentioned in the introduction to this style guide, we are including a new tagline that reflects the relevance and scope of all of our work: "Measuring America—People, Places, and Our Economy." This is to be used only within the approved logos included in this guide. Messaging within communications may also echo that "we measure America—people, places, and our economy," as appropriate.

We have begun an earnest effort to remove, in all instances, any future use of the Census Bureau's former wordmark:

U S C E N S U S B U R E A U

and its accompanying tagline:

"Helping you make informed decisions."

SUPPORTED TYPE STYLES

This section describes the supporting type styles for all Census Bureau communications and messaging. Type style consistency on Census Bureau applications and materials is essential for projecting a cohesive public image and recognizable design style.

The Lucida type family as a serif type style and the Lucida Sans type family as a sans serif type style will remain as the preferred support type styles for the Census Bureau's brand identity. These type styles should be used for all text on assets.

Shown here is a selection of available weights and styles of the Lucida and Lucida Sans type families. Selection of the appropriate typography style within this family will be left to the discretion of the art director or project manager.

Section 2.1

Preferred Serif Type Style

Note: The Times Roman type family as a serif type style and the Helvetica type family as a sans serif type style have been selected as the alternate support type styles for the Census Bureau's brand identity when Lucida or Lucida Sans type families are not available. A selection of available weights and styles are shown here. Selection of the appropriate typography style within the Times Roman and Helvetica families will be left to the discretion of the art director or project manager.

CENSUS BUREAU LOGO STANDARDS

The Census Bureau logo consists of the words “United States Census Bureau” displayed in specific fonts. No other font can be used to build the logo. It can appear as a stand alone or be coupled with an approved tagline, theme, or regional office as displayed here.

When the Census Bureau logo is used, it should be sufficiently isolated from illustrations, or other words or images that might detract from the logo’s importance. One good general rule is that the logo be one “s” height (from the word “Census”) away from illustrations, photographs, rules, page edges, or other type.

The Census Bureau logo shall be used on any printed, digital, or visual assets where identification is desirable to promote the Census Bureau’s image and brand, including flags, vehicles, exhibit structures, banner and poster displays, podiums, projected visuals, reports/covers, brochures/pamphlets, portfolios/folders, stickers, pencils, magnets, business cards, letterhead, envelopes, and forms.

The corporate logo is available in a variety of styles for use on a variety of media for headquarters’ and regional office uses. All Census Bureau programs and offices will affix only the official logo and approved taglines to Census Bureau produced properties. Requests for any customizations to the logo must be submitted to the Census Bureau’s Brand and Corporate Identity Standards Team who, in turn, will forward with their recommendations to the Census Bureau’s operating committee for final decision.

Colors

The Census Bureau's logo is available in Census Bureau black, red, and blue. These colors will accommodate most one- or two-color print jobs created by the Census Bureau. Instances where copy must be another color, the logo's default color will be black.

Census Bureau black

Section 3.2

Positive and Reverse Logos

Although the preferred use of the logo is Census black, red, or blue on a white or light background, there may be a need, from a design standpoint, to use the logo in a reversed format. Attention must then be given for the logo to be clearly legible. Background colors that are dark enough to provide adequate contrast should be used.

As a general rule, mid-range (55 percent) or less color saturation should be avoided since there is not enough contrast for effective logo use.

When a positive logo is used on a color background the logo will appear in Census black, red, or blue, whichever offers the most contrast.

Positive logo

Reverse logo

Positive and reverse logos with taglines

Section 3.3

Reproduction Sizes

Any reduced sizing of the logo must maintain readability and reproduction quality. Make sure the line screen is 133 or finer. If you want to use a coarser screen, make sure the logo is no smaller than 3/4" wide.

Reproduction Sizes—Con.

Standard sizes have been determined which establish the most effective presentation of the logo. Brochure, stationery, and report cover sizes are illustrated below. A .45" emblem for use on report cover spines is the smallest allowable size.

Report cover spine,
business card

CD, jewel case

Brochure, print system

Report cover

Section 3.4

Unacceptable Applications of Census Bureau Logos

Below, we provide examples of unacceptable applications of the new Census Bureau logos. Please note these examples pertain to all iterations of the logo: i.e., the “solo” version as shown with tagline (Measuring America) or with theme line (Economic Statistics); the American Indian and Alaskan Native version; and the in-language logo for Puerto Rico.

Do not violate the logo clear zone.

Do not place logo over complex backgrounds.

Do not add or change typeface of logo type.

Do not abbreviate logo typeface or add other words.

Do not alter color from accepted standards.

Do not alter size or proportions of elements within the logo.

AMERICAN INDIAN OR ALASKA NATIVE (AIAN) LOGO STANDARDS

AIAN Logo

The AIAN logo consists of the words “United States Census Bureau” with two feathers encircling the words, displayed in the specific fonts that were created for this logo. No other font can be used to build the logo. This logo is for use on products and materials created for the AIAN population. The AIAN logo should never be used together with the standard Census Bureau logo on any material.

When the AIAN logo is used, it should be sufficiently isolated from illustrations, or other words or images that might detract from the logo’s importance. A good general rule is that the logo be one “s” height (from the outside of the circle created by the feathers) away from illustrations, photographs, rules, page edges, or other type.

Circles can be used in place of the “s” for measuring spacing around the logo, as long as the circles are the same height as the “s” as illustrated.

Section 4.2

AIAN Logo Colors

The AIAN logo is limited to two developed colors, Census red and black, as defined earlier in this style guide.

Coated and uncoated paper stock swatches of the AIAN colors are provided in the back of this manual.

AIAN Census black

Note: The colors shown are for example only and are not intended to match PANTONE® colors. See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Section 4.3

AIAN Logo Color Combinations

The AIAN logo combinations are to be used in the manner shown below only, solid black or red words and black feathers.

The logo can also be used in reverse, as solid white only, with a background no lighter than 60 percent color saturation.

AIAN positive logo

AIAN negative logo

Spanish Version

The Census Bureau's in-language Puerto Rico logo consists of the words "Negociado del Censo ("Census Bureau"), Estados Unidos ("United States"), Puerto Rico," as a stand alone. No other fonts can be used to build this logo.

When the Puerto Rico logo is used, it should be sufficiently isolated from illustrations, or other words or images that might detract from the logo's importance. One good general rule is that the logo be one "s" height (from the word Census) away from illustrations, photographs, rules, page edges, or other type.

Section 5.2

Puerto Rico Logo Colors

The Negociado del Censo Estados Unidos Puerto Rico logo is limited to two developed colors, purple and black.

Coated and uncoated paper stock swatches of colors are provided.

K: 15.0

Note: The colors shown are for example only and are not intended to match PANTONE® colors. See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Section 5.3

Puerto Rico Positive and Reverse Logos

The preferred use of the logo is Census purple or black on a white or light background. On rare occasions, a design may require a reverse formatted logo.

Give close attention to ensure that the images are clear. Use background colors that are dark enough to provide adequate contrast. As a general rule, avoid mid-range (55 percent) or less color saturation to ensure there is enough contrast so the images display clearly.

When using a positive logo on a colored background, such as colored paper stock, use the logo color (Census purple or black), that offers the most contrast between the stock and the image.

U.S. CENSUS BUREAU AND U.S. DEPARTMENT OF COMMERCE SEALS

Census Bureau

Black and white

Color

Department of Commerce

Black and white

Color

The Census Bureau and the Department of Commerce (DOC) affix their seals to legal documents that are signed by both the Director of the Census Bureau and the Secretary of Commerce on documents that carry their names and titles.

Title 13, Code of Federal Regulations, Part 100, states that the Census Bureau's seal shall be affixed to all legal certificates and attestations that may be required from the Census Bureau, such as the following:

- Awards and certificates for meritorious service.
- Certificates for successful completion of training.
- Copies of any other documents requiring authentication that the material is a true copy of the original. (Official Census Bureau publications do not require the seal for authentication.)
- Special tabulations and compilations, when requested.
- Official statements of the population of municipalities and other places, when requested.
- Publications printed for public distribution, in accordance with the guidelines for report covers.

The Census Bureau's Legal Office answers all questions about the seal's usage. The Census Bureau's Communications Directorate's Correspondence Quality Assurance Staff (CQAS), housed in the Policy Office, has custody of the official DOC and Census Bureau seals. CQAS affixes these seals as appropriate to printed documents.

EXHIBIT STRUCTURES

Exhibits and Collateral Materials

The Communications Directorate, under authority from Census Administrative Manual Chapter B-18 Promotions and Events Program provides the following services to administrative and program areas that wish to include exhibit structures and other displays at Census Bureau sponsored events and conferences.

Staff:

- Identify and coordinate all agency procurements of exhibit structures, display accessories, and graphics for Census Bureau public displays and promotions to ensure brand and corporate identity compliance.
- Design, modify, and/or tailor structures and graphic panels to reflect sponsoring area's theme(s) or message(s) to targeted audiences while maintaining the messages and images of the brand and corporate identity standards.
- Coordinate storage and maintain all Census Bureau exhibit structures, display accessories, and graphic panels. Work with service providers to accurately inventory and identify structures and accessories for each event; and, to coordinate shipments, replacements, and repairs.
- Collect and arrange for shipment of exhibit materials and any other special needs.
- Provide for all exhibits: (1) a generic collection of materials that promote the Census Bureau's overall mission and, (2) special display items and hand outs suggested by sponsoring areas to promote specific programs or products to targeted audiences.

In keeping with the refreshed brand and corporate identity initiative, the Census Bureau has invested in new exhibit structures and collateral materials that will help us project a consistent and panoramic perspective of the Census Bureau and its work representative of our message: Measuring America—People, Places, and Our Economy.

Several versions of the structures with graphics are available through the conferences and events program on a first-come, first-served basis.

As you review the following items, you will note that the logo is front and center above the panorama of people, places, and economy-related images. Themes and topics (instead of program names and units) appear in the lower portion of all structures and materials.

There are caveats to options available for tailoring graphic panels and thematic words and topics. That is, the Census Bureau's logo must appear front and center, the panorama should reflect themes or topics appropriate to the American public's benefit or use of the products or services, and make a cohesive and attractive reflection of the Census Bureau's Measuring America—People, Places, and Our Economy.

The color schemes will remain consistent across all media and venues.

CONTACT INFORMATION

Business Card Guidelines

A format has been designed for the Census Bureau that contains the Census Bureau logo along with social media icons. This is a strict set format for all Census Bureau programs and offices.

Note: All other Census Bureau stationery, i.e., letterhead, envelopes, and fax coversheets must follow the specifications for logos, type styles, and type sizes detailed in the Census Bureau's corporate identity guidelines.

E-mail Signatures

The Census Bureau's Lotus Notes e-mail program allows us to include our personalized business e-mail signatures automatically. And, we use these signatures to help people remember who we are, where we work, and the multiple ways they can communicate with us. In the real world (as opposed to online) when we meet prospective customers, we would hand them our business card to keep for future use when they had a question or needed our help again.

Think of your e-mail signature as your online business card that can be affixed automatically to every e-mail you send, every forum post, every comment you leave, or any time you want to put your name on professional business communications. Just be sure to follow the guidelines for the media to which you are posting.

census.gov

Connect with us:

It is not just a good idea to attach a business card e-mail signature to every message that is sent out, it is vital to the Census Bureau's business success. Signatures work as repeated reminders of the Census Bureau's identity every time customers see them. Templates (e.g., business cards) that inappropriately used the Census Bureau's official seal will be revised so that the seal is replaced with the new corporate logo.

The more often people see your name and the Census Bureau's name when we communicate with them, the more likely our relationship with them will last. This is what we want—to be first in the hearts and minds of all of our customers!

Therefore, we have created an approved e-mail signature, icons with links to social media, and your personalized contact information.

Appending your HTML Signature in iNotes.

In your iNotes client, click "Preferences" in the upper right-hand corner. Click the "+" beside "Mail" to expand; then click "Signature".

In the “Plain text” box, paste the text below, replacing the highlighted text with your information:

```
[<!DOCTYPE html PUBLIC "-//W3C//DTD XHTML 1.0 Transitional//EN"
"http://www.w3.org/TR/xhtml1/DTD/xhtml1-transitional.dtd"><html
xmlns="http://www.w3.org/1999/xhtml"><head><meta http-
equiv="Content-Type" content="text/html; charset=utf-8" /><title>Email
signature</title></head><body><hr /><p style="font-family:Arial,
Helvetica, sans-serif; font-size:11px;"><span style="font-size:14px;
font-weight:bold;">John Q. Public</span><br /> Your Title Here<br />
Your Division/Office Here <br />U.S. Census Bureau</p><p style="font-
family:Arial, Helvetica, sans-serif; font-size:11px;">Office: 000-000-
0000<br /> Cell: 000-000-000<br /> Fax: 000-000-000<br />E-mail:
John.Q. Public@census.gov<br /> <a href="http://www.census.
gov/">census.gov</a></p><p style="font-size:12px;"><em>Connect

com/uscensusbureau"></
a><a href="http://www.youtube.com/USCensusBureau"></a><a href="http://www.flickr.com/photos/
uscensusbureau/"></a></p></
body></html>]
```

Lastly, at the bottom of the “Signature” window, be sure that the “automatically append” box is checked and the “plain text” radio button is selected like the screenshot on page 37.

Do keep in mind that the signature code includes images from a web server, so these images are considered remote images. Remote images are blocked from displaying by default in most web-based email packages and iNotes will give you a security warning similar to the one below:

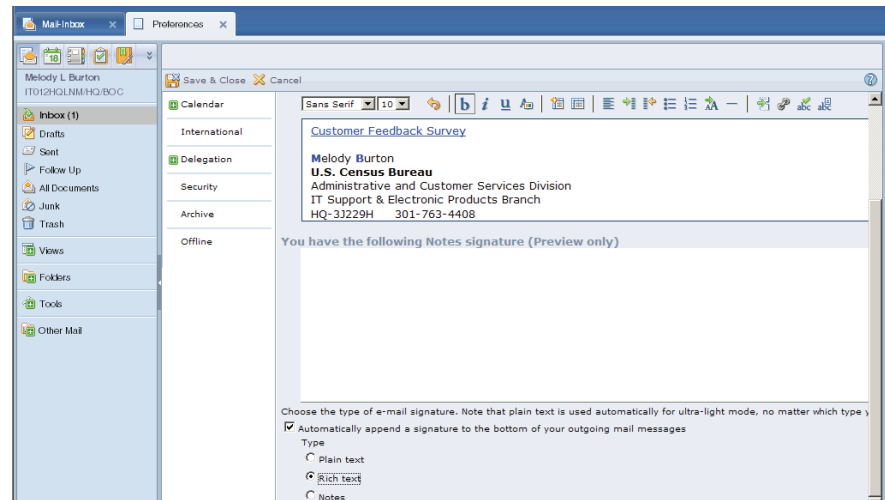

Security: To ensure privacy, images from remote sites were prevented from downloading. Show Images

You must click the “Show Images” hyperlink to see the Twitter, Facebook, YouTube, and Flickr icons if you want to see the icons.

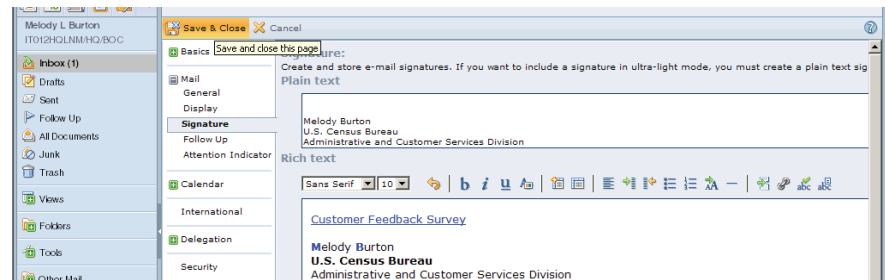

Click **Insert**.

At the bottom of the screen, **Check** the boxes for **Automatically append a signature** to the bottom of your outgoing mail messages and **Rich Text**.

Click **Save & Close** at the top of the screen.

REPORT COVER GRID SYSTEM

As the basis of the report cover, the grid system ensures an organized and consistent presentation. The structure of the grid determines how and where the information on the cover is laid out. It dictates the location of all elements, including text, images, and logos. The grid, with its pre-determined positions for the different elements, may not be altered.

A. Report information panel:

The top part of the report cover is reserved for report information.

A1. Baseline

B. Program and author information panel:

The center panel is reserved for program and author information.

C. Endorsement panel:

The bottom panel is reserved for the U.S. Census Bureau logo, other endorsements, and web address. The logo, the U.S. Department of Commerce endorsement, and the program name are positioned in consistent locations.

Report Cover Grid Illustration

The report cover system is one of the most important aspects of the new U.S. Census Bureau visual identity. As described in this section, the system is flexible and provides many engaging and workable options. With careful and consistent application of the system standards, we will be able to represent the attributes desired: integrity, consistency, and accuracy. Through logical visual links between all our reports, we will increase the visibility, unify the perception, and update the image of the U.S. Census Bureau.

Color Placement

Use of color is another important element in defining the report cover system. The appropriate application of the U.S. Census Bureau color palette will further help unify our reports. This page describes general guidelines for flexible use of color, and the following pages show several possible variations that may be achieved.

- A. The report information panel may be white, a solid color, or tint allowing design flexibility. The text color is either a color, white or black.
- B. The imagery window may be filled using illustrations, photos or vector imagery. On short reports, those with less than 30 pages, it may be filled using a solid color or tint.
- C. The report information panel may either be white, a solid color, or tint allowing design flexibility. The color of text is either black or white. The logo color is an official Census color.

Economics and Statistics Administration
U.S. CENSUS BUREAU
census.gov

1/4 inch

Section 10.4

Imagery

The report cover system was created to provide a cohesive look and feel to the entire body of work we produce. This look and feel is iterated by the consistent placement of information on the report cover. On the cover, information is basically organized—and read—from top to bottom. In effect, it goes from the specific to the general, creating intrinsic meaning along the way.

Imagery Placement

Imagery, such as illustration, photography, or other graphic treatment, may only be applied on the imagery window (or arc). See examples on the next few pages for both imagery and color variations. Adjusting the width of the imagery window for either a 0.25" border or bleed is done by scaling only the X axis by 105 percent to retain grid height.

Report Cover Variations

One color background field for upper panel with reverse type. Imagery window and background full bleed. Endorsement and logo are black.

One color background field for upper and lower panels with reverse type, endorsement and logo. Imagery window and background full bleed.

White background field for upper and lower panels. Title, endorsement, and logo are black. Imagery window has 0.25" border.

One color background field for upper and lower panels with reverse type, endorsement and logo. Imagery window and upper panel has 0.25" border.

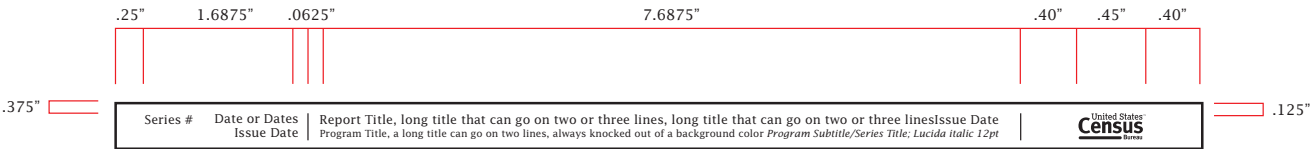

Section 10.6

Spine

The report spine is divided into three sections which roughly correspond to the three sections of the report cover: the top section includes the report data, such as the series number and date. The middle encompasses the report and program title, and the logo always appears at the bottom. The spine sections are differentiated by either a hairline rule or by color. This should also coordinate with the cover design.

The width of the spine will depend on the length of the report. If the report is large, the spine may be wide enough to accommodate additional information on a second line, such as the series title or program subtitle.

When the spine is wider than 0.375", the information may run to two lines. The information here is separated by a hairline.

- Series #**
Lucida Sans 6 pt/10 pt
- Date**
Lucida 8 pt/10 pt
- Issue Date**
Lucida Sans 6 pt/10 pt
- Report Title**
Lucida 8 pt/10 pt

<p>ACKNOWLEDGMENTS</p>	<p>Carmen DeNavas-Walt, with the assistance of Lillian R. Pecoraro and Lindsey C. Reese, prepared the income section of this report under the direction of Edward J. Welniak Jr., Chief of the Income Surveys Branch. Bernadette D. Proctor prepared the poverty section and Jessica C. Smith prepared the health insurance coverage section, both under the direction of Trudi J. Renwick, Acting Chief of the Poverty and Health Statistics Branch. Charles T. Nelson, Assistant Division Chief for Income, Poverty, and Health Statistics, Housing and Household Economic Statistics Division, provided overall direction.</p> <p>George M. Mitcham and Tim J. Marshall, under the direction of Adelle D. Berlinger and Gregory D. Weyland, Demographic Surveys Division, processed the Current Population Survey 2009 Annual Social and Economic Supplement file. Donna K. Benton, Kirk E. Davis, Thy K. Le, and Hung Pham, all of the Survey Processing Branch, programmed and produced the detailed and publication tables.</p> <p>Danielle N. Castelo, Rebecca A. Hoop, and Michael E. White, under the supervision of David V. Hornick, Kimball T. Jonas, and John M. Finamore, all of the Demographic Statistical Methods Division, conducted sample review. Thomas F. Moore III, Chief of the Health Surveys and Supplements Branch, provided overall direction.</p> <p>Shannon M. Burnett, Tim J. Marshall, and Catherine M. Walker, under the direction of Lisa A. Clement, Demographic Surveys Division, and Agatha Jung under the direction of Leslie Fleet, Technologies Management Office, prepared and programmed the computer-assisted interviewing instrument used to conduct the Annual Social and Economic Supplement.</p> <p>Additional people within the U.S. Census Bureau also made significant contributions to the preparation of this report. Barton Baker, David M. Getz, John Hisnanick, Len Norry, Ashley Provencher, Joanna Turner, and Judith Waldrop reviewed the contents.</p> <p>Janet S. Sweeney, Jamie A. Stark, and Donald J. Meyd, of the Administrative and Customer Services Division, Francis Grailand Hall, Chief, provided publications and printing management, graphics design and composition, and editorial review for print and electronic media.</p>

Section 10.13

Short Reports

The short report cover is organized in a similar way to the basic report cover. However, the major difference is that the short report actually begins on the cover. Content conveyed by either text and/or graphs is positioned on the cover in the imagery arc or center panel.

As with the basic report cover, a grid is provided for the short report cover format. Text appears in two columns to allow for the most effective use of space. When there is no program title, program subtitle, or series title, text starts at the top of the panel.

U.S. CENSUS BUREAU
Washington, DC 20233-0001
OFFICE OF THE DIRECTOR

FROM THE DIRECTOR
U.S. CENSUS BUREAU

About three months ago, you completed an interview for the Consumer Expenditure Survey. We are contacting you again to request your ongoing help with this very important survey. Soon a field representative with official identification will contact you again for an interview.

Your responses help update the Consumer Price Index (CPI). The CPI is the most important tool used to measure how fast prices are rising or declining and directly affects wages and pensions. Your response is a service to your community and the country.

To help shorten the interview, you may want to have some records of expenses available for reference. On the back of this letter are examples of records that may reduce the interview time and improve the quality of survey results.

Your participation in this survey is essential; however, you may choose to decline to answer any particular question. Federal law authorizes the collection of this information (Titles 13 and 29 of the United States Code), and Sections 9 and 214 of Title 13 require us to keep all information about you and your household strictly confidential, and to use that information for statistical purposes only.

Thank you for your cooperation in this important survey. We appreciate your help.

Sincerely,

A handwritten signature in blue ink, reading "Robert M. Groves", is positioned above the printed name and title.

Quarterly Summary of State and Local

TAX REVENUE INCREASES FOR SIXTH STRAIGHT QUARTER

Released June 28, 2011
G11-QTAX1

2011 Quarter 1

First quarter 2011 (2011:1) tax revenues for state and local governments, as compared with first quarter 2010 (2010:1), were up 4.7 percent, marking the sixth consecutive quarter of positive year over year growth. Tax revenue for the quarter totaled \$321.6 billion, compared with the \$307.2 billion reported for the first quarter of 2010.

Of the largest tax categories general sales tax, individual income tax, and corporate income tax showed positive growth over the same quarter 2010. First quarter property tax declined for the third time since the first quarter of 2009.

Taxes by Category

Property Tax

Total state and local property tax revenue was \$113.3 billion in the first quarter of 2011, a decrease of 1.7 percent from \$115.3 billion in 2010:1. Local governments collected \$111.3 billion of total property tax revenue, a decrease of 1.7 percent from the same quarter in 2010.

Individual Income Tax

Individual income tax growth was positive for the fifth consecutive quarter compared to the same quarter of previous years. State and local individual income revenue in 2011:1 was \$64.4 billion, up 11.9 percent from \$57.5 billion in 2010:1.

General Sales Tax

General sales tax revenue rose 5.8 percent to \$73.7 billion from \$69.7 billion in 2010:1. General sales tax

Historical Quarter One
Property Taxes: 2001-2011

Source: U.S. Census Bureau, Quarterly Summary of State and Local Government Tax Revenue.

collection remains below the first quarter 2008 level of \$75.5 billion, the previous high mark for first quarter sales tax revenue.

Corporate Income Tax

Corporate income tax revenue grew by 6.3 percent in 2011:1 from the same period in the prior year. Revenue for the first quarter was \$10.8 billion, up from \$10.1 billion in 2010:1.

Census Bureau Resources For Small Business

Get Smart About Your Business

The U.S. Census Bureau measures America's people, places and economy. We provide a wealth of statistics that are essential resources to help small businesses to succeed and grow.

Know Your Customers, Suppliers and Competitors

Statistics About Business Size

Find data on employers vs. nonemployers, employment size of firms and establishments, and firms by receipts size. <smallbiz.census.gov>

Statistics of U.S. Businesses

Find annual data for businesses by size, number of firms, employment and payroll down to the county level. <census.gov/econ/susb>

Survey of Business Owners

Identify the characteristics of business owners by industry, gender, race, ethnicity, and veteran status, down to the city and county level. Updated every 5 years. <census.gov/econ/sbo>

County Business Patterns

Find annual information about establishments with paid employees down to the county level. <census.gov/econ/cbp>

Nonemployer Statistics

Find annual information about businesses with no paid employees down to the county level. <census.gov/econ/nonemployer>

Economic Census

Use as a valuable complement to annual current survey data. Updated every 5 years; includes the number of establishments; employment and payroll; and the only source of local area business revenue. <census.gov/econ/census07>

Government Statistics

Learn about government activity within your community. Includes financial activities of state and local governments such as revenues, expenditures, debt and assets; federal spending; and employment for all levels of government. <census.gov/govs>

Go Global

Foreign Trade Statistics

Identify potential business markets and overseas trade opportunities. These data provide monthly measures of imports and exports of more than 15,000 commodities, by port, by country of origin or destination, and by state of origin or destination. <census.gov/foreign-trade>

Need Help?

Your Small Business Advocate

The Small Business Ombudsman office can help you understand and use Census Bureau data. <census.gov/osbo>

Regional Data Centers

Call or visit the Regional Data Center in your local Census Bureau Regional Office for local data assistance, workshops, and presentations. <census.gov/regions>

Business Help Site

Get help with your business forms and access electronic reporting options. <census.gov/econhelp>

CommerceConnect

A one-stop shop to connect your business with government information, counseling and services. <commerceconnect.gov>

The New Chief of the Foreign Trade Division (FTD)

The FTD is pleased to announce the selection of Nick Orsini as our new Division Chief effective March 28, 2010.

Mr. Orsini began his career at the U.S. Census Bureau in the FTD in 1988. He most recently served as Assistant Division Chief for Trade Analysis and Dissemination where he was responsible for directing the

production of the U.S. International Trade in Goods and Services report, one of the principal economic indicators for the United States. He was also responsible for overseeing the processing results of millions of import and export transactions each month, developing several innovative data products, and collaborating with other public and private organizations on mutually beneficial projects.

Mr. Orsini holds a bachelor's degree in economics from the University of New Mexico and a master's certificate in project management from The George Washington University. He is also a 2008 graduate from the Excellence in Government leadership program.

Mr. Orsini can be reached by phone at 301-763-6959, by e-mail at nick.orsini@census.gov, and by fax at 301-763-6638.

INTRODUCTION

About Our Brand

The U.S. Census Bureau is the nation's leading source of data and the public should trust that data.

When the public receives mail with the Census Bureau logo on it, they should be inclined to open it and respond.

And when responding to one of our surveys, they should trust us to keep their data safe.

All of these are positive feelings and reactions we want people to experience when they hear or see the Census Bureau name.

We want people to know that the Census Bureau produces accurate data about our nation's people, places, and economy. Equally as important, we want them to trust us to keep their data safe and confidential.

This is our brand, and all of us must constantly work to support and protect it.

The American people have a generally positive attitude toward the decennial census. It's specifically mandated in the

Constitution. It's foundational to our democratic system of government. It demands every household's attention every 10 years.

It's so well recognized, in fact, that often the smaller surveys we conduct are met with suspicion or confusion.

Our branding and corporate identity guidelines are part of building trust with survey respondents in between the decennial censuses.

When our materials consistently display our logo and other official look and feel elements, people can recognize and verify them as legitimate.

Our surveys, as well as the economic census, benefit from the goodwill of the decennial census when they are visually linked to the Census Bureau brand.

So when people are invited to participate in one of our surveys, the connection to the Census Bureau—and all it stands for—is unmistakable.

“Measuring America— People, Places, and Economy”

Our tagline, “Measuring America—People, Places, and Economy,” reinforces our purpose and mission. We will use this tagline to drive home the scope of the work we do.

Objectives

- Consistently apply the corporate identity standards and branding to illustrate that the Census Bureau is the leader of official U.S. statistical methodology and reliable data collections.
- Effectively promote activities conducted by the Census Bureau.
- Provide guidelines for contractors, vendors, and partners who produce materials for and with us.
- Maintain the most effective visual presence of the Census Bureau’s core identity to serve as the organization’s long-term corporate brand.

Corporate Identity Standards and Branding

The standards outlined in this guide should be applied to all communications materials, including but not limited to the following:

- Conference materials
- Data visualizations
- E-mail
- Promotional materials
- Publications
- Social media channels
- Videos

A Message From the Members of the Corporate Identity and Branding Standards Team

This updated style guide aims to better align the look and feel of all of our communications materials, from digital to print. Use this guide when making design decisions on everything from Web sites, publications, signage, and slide decks to e-mail signatures, newsletters, and videos. We will provide updates to this guide as the need for additional detail becomes apparent.

The goal of our corporate identity program is to present the Census Bureau in a unified, positive way. We want everyone that interacts with us and our data to have a clear sense of the quality of our data and to trust its confidentiality. In order to accomplish this goal, every one of us must protect our brand by diligently following these guidelines.

Christine E. Taylor (Cochair)	Assistant Division Chief, Public Information Office
Lisa Wolfisch (Cochair)	Acting Chief, Center for New Media and Promotions
Michele Bartram	Customer Experience Officer
Michael C. Cook	Chief, Public Information Office
Michele C. Hedrick	Special Assistant
Jeffrey Meisel	Chief Marketing Officer
Victor E. Romero	Content Integrator
Janet S. Sweeney	Creative Services Manager

CENSUS BUREAU'S BRAND NAME

Except for the Bureau of the Census seal (used only on official and legal documents), we will refer to our agency as the U.S. Census Bureau or the Census Bureau. For external communications, in the first reference to the agency only, use **U.S. Census Bureau**; on all subsequent references within the communication, use **Census Bureau**. For internal communications, always use **Census Bureau**.

Never use **the Bureau**, **Census**, or **BOC** alone when referring to the agency or its programs and work.

CENSUS BUREAU LOGO

The Census Bureau logo (known as the standard logo) is the most important element of our corporate identity and branding. We use it on digital and print materials to help our customers clearly recognize us.

Use the DOC endorsement (known as the lockup) on all public-facing materials associated with our data.

Do not use the lockup on promotional materials or materials intended for an internal audience only.

Logo Placement

The standard logo should be sufficiently isolated from any other element that might detract from the logo's importance. The logo must have one "s" height (from the word "Census") of unused space around it.

Logo Color

PANTONE® 647

Color builds for
PANTONE® 647

C=95	205493
M=75	R=32

K=2	B=147

Note: The PANTONE® color shown is for example only. See the current PANTONE® Color Standards book for color swatches and formulas. PANTONE® is a registered trademark of Pantone, Inc.

Color Options

The preferred use of the logo is blue on a white or light background. The logo may be black or reversed on a dark background of any color. When reversed, the logo and lockup must have enough contrast to be clearly legible.

census.gov

Reproduction Size

The logo size for a standard 8.5" x 11" page should be 1.5" wide.

You can reduce the size of the logo, but it cannot be so small that its readability or reproduction quality is jeopardized. In general, the logo should be no smaller than 0.75" wide.

LIMITED-USE LOGOS

American Indian or Alaska Native (AIAN) Logo

The AIAN logo consists of the words “United States Census Bureau” with two feathers encircling the words, displayed in the specific fonts that were created for this logo. This logo is for use on products and materials created for the AIAN population only. The AIAN logo should never be used together with the standard logo on any material.

When the AIAN logo is used, it should be sufficiently isolated from any other element that might detract from the logo’s importance. The logo must have one “s” height (from the word “Census”) of unused space around it.

AIAN Logo Color Options

The preferred use of the AIAN logo is blue words with black feathers. The logo may be black or reversed on a dark background of any color. When reversed, the logo must have enough contrast to be clearly legible.

Black and Pantone® 647¹

Black

Reversed on a solid background

¹ See Pantone® 647 color builds on page 6.

Puerto Rico Logo

The Census Bureau's in-language Puerto Rico logo consists of the words "Oficina del Censo, Estados Unidos, Puerto Rico." No other fonts can be used to build this logo. This logo is for use on products and materials created for the Puerto Rican population only. The Puerto Rico logo should never be used together with the standard logo on any material.

When the Puerto Rico logo is used, it should be sufficiently isolated from any other element that might detract from the logo's importance. The logo must have one "s" height (from the word "Censo") of unused space around it.

THE DECENNIAL CENSUS LOGO

The decennial census logo is our best-known and most-used asset. It is the cornerstone of our census promotional program. Since the 2000 Census, the decennial logo has been presented in a consistent fashion, and its use is governed by strict rules. If it is used haphazardly, the logo's ability to communicate consistent quality and trust will be diminished. Your assistance and cooperation in the protection of the decennial logo is valued and appreciated.

The decennial logo timeline

The 2020 Census Logo

The 2020 Census logo is a descendant of the 2000 Census logo. By design, it is built upon and reinforces the branding gains of the two preceding decennial censuses.

When the 2020 Census logo is used, it should be sufficiently isolated from illustrations or other words or images that might detract from the logo's importance. As with the standard logo, the 2020 Census logo must have one "s" height (from the word "Census") of unused space around it.

2020 Census logo Color

PANTONE® 194

Color builds for
PANTONE® 194

C=8 **9B2743**
M=100 R=155
Y=55 G=39
K=37 B=67

Color Options

The preferred use of the 2020 Census logo is red on a white or light background. The logo may be black or reversed on a dark background of any color. When reversed, the logo must have enough contrast to be clearly legible.

Pantone® 194

Black

Reversed on a solid background

Usage Requirements

The 2020 Census logo is not a stand-alone logo, it must always be used with the standard logo on promotional materials and with the lockup on all public-facing materials associated with decennial data. For print and Web products, the standard logo or lockup is always placed on the lower left, the 2020 Census logo is always placed on the lower right. No other information, such as form numbers or issue dates, should be placed below the logos.

Sample placement

LIMITED-USE DECENNIAL LOGOS

American Indian or Alaska Native (AIAN) Decennial Logo

The AIAN decennial logo consists of the words “United States Census 2020” with two feathers encircling the words, displayed in the specific fonts that were created for this logo. This logo is for use on products and materials created for the AIAN population only. The AIAN decennial logo should be used alone on decennial promotional materials. Standard placement is in the lower left corner of the page.

When the AIAN logo is used, it should be sufficiently isolated from any other element that might detract from the logo’s importance. The logo must have one “s” height (from the word “Census”) of unused space around it.

AIAN Decennial Logo Color Options

The preferred use of the AIAN decennial logo is red words with black feathers. The logo may be black or reversed on a dark background of any color. When reversed, the logo must have enough contrast to be clearly legible.

Black and Pantone® 194¹

Black

Reversed on a solid background

¹ See Pantone® 194 color builds on page 15.

Puerto Rico Decennial Logo

The Census Bureau's in-language Puerto Rico decennial logo consists of the words "Censo 2020, Puerto Rico." No other fonts can be used to build this logo. This logo is for use on products and materials created for the Puerto Rican population only. The Puerto Rico decennial logo should be used alone on decennial promotional materials. Standard placement is in the lower left corner of the page.

When the Puerto Rico decennial logo is used, it should be sufficiently isolated from any other element that might detract from the logo's importance. The logo must have one "s" height (from the word "Censo") of unused space around it.

U.S. DEPARTMENT OF COMMERCE AND U.S. CENSUS BUREAU SEALS

U.S. Department of Commerce

U.S. Census Bureau

The Department of Commerce (DOC) and the Census Bureau seals are used on legal documents that are signed by and carry the names and titles of the Secretary of Commerce and the Director of the Census Bureau.

The seals are also used on all awards, legal certificates, and attestations such as the following:

DOC Seal	Census Bureau Seal
<ul style="list-style-type: none">• Publications for public distribution, on the title page.• Survey letters.	<ul style="list-style-type: none">• Publications for public distribution, on the roster page.• Copies of documents requiring authentication that the material is a true copy of the original.• Official statements of the population of municipalities and other places, when requested.• Special tabulations and compilations, when requested.

The seals are not used on presentations or internal communications.

More detailed information on seals and their usage is available through the Policy Coordination Office/Policy Portal page on Census Central.

COLOR

A unified color palette is an essential component of corporate identity and branding. Color consistency helps our customers recognize and connect with us.

The following pages define the color palette for the digital experience (census.gov) and for print and Web products. The majority of the colors are the same. The two exceptions are the primary blue color is darker in the digital experience and the print and Web products palette has additional accent colors to accommodate special campaigns. A sample census.gov page (see page 20) displays the use of the two color palettes.

FONTS

This section describes the fonts for all Census Bureau communications and products. A consistent use of fonts helps our customers recognize and connect with us.

Fonts for the Digital Experience (census.gov)

Roboto has been selected for titles, subtitles, and numbers for census.gov Web pages. **Lora** has been selected for body text. The typography adheres to specific requirements to ensure legibility and optimal display on different browsers.

Roboto	Lora
Titles, subtitles, and numbers	Body text
ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 1234567890	ABCDEFGHIJKLMNOPQRSTUVWXYZ abcdefghijklmnopqrstuvwxyz 1234567890
<i>The quick brown fox jumped over the lazy dog.</i>	<i>The quick brown fox jumped over the lazy dog.</i>

Fonts for Print and Web Products

The **Gotham** font family as a sans serif type style and the **Chronicle** font family as a serif type style are the preferred fonts. These fonts will be used for all text. The art director or graphic artist will determine the appropriate typography styles for each project.

If the **Gotham** or **Chronicle** font families are not installed on your computer or compatible with your software program or platform, you may use the **Calibri** (sans serif) or **Cambria** (serif) font families. **Use these fonts on all of your internal and external communications materials, including slide decks and e-mail.**

The following pages provide samples of the fonts.

E-MAIL MARKETING

GovDelivery Template Improvements

- Mobile and tablet-friendly e-mail templates are designed to boost engagement, increase open and click rates. The drag and drop interface allows for easy customization.
- Incorporates the look and feel of *census.gov*.
- Uses the Calibri font to ensure compatibility on the widest range of e-mail clients, Web browsers, and devices.
- Uses the best practices from the e-mail/digital marketing team.

Standard Template for Marketing

Mobile Monthly Newsletter

Standard Template for Press Releases

Mobile One-Column Newsletter

EXHIBIT STRUCTURES

Exhibits and Collateral Materials

The Customer Liaison and Marketing Services Office (CLMSO) provides exhibit structures for use at Census Bureau sponsored events and conferences.

CLMSO staff will:

- Schedule and deliver all standard Census Bureau exhibit structures.
- Coordinate the design and procurement of new, program area-funded exhibit materials and the storage, shipment, replacements, and repairs.

Structures are available through the conferences and events program on a first-come, first-served basis.

Sample Portable Exhibit Structures

REPORTS

The Grid System

A grid system is used for all print and Web products to ensure an organized and consistent presentation. See next page for the sample.

Covers

As the basis of the report cover, the grid system determines how and where the information on the cover is laid out. It dictates the location of all elements, including text, images, and logos. The grid, with its predetermined positions for the different elements, may not be altered.

1. Report information panel:

The top part of the report cover is reserved for report information.

2. Program and author information panel:

The center panel is reserved for program and author information.

3. Design panel:

The design panel is for illustrating the report contents.

4. Endorsement panel:

The bottom panel is reserved for the Census Bureau logo, other endorsements, and the Web address. The lockup and 2020 Census logo (when used) are positioned in consistent locations.

Text Sizes

The default text sizes are listed below. Adjustments may be made to the type sizes of the title and subtitle to accommodate the amount of text.

Report title and date	Gotham Medium , 22 pt/28 pt
Report subtitle	<i>Gotham Medium Italic</i> , 14 pt/20 pt, 50% black or white
Program title	Gotham Bold , 12 pt/13 pt, black or white
Program subtitle	<i>Gotham Medium Italic</i> , 12 pt/13 pt, 50% black or white
Author's name	Gotham Medium , 9 pt/13 pt, black or white
Issue date	Gotham Medium , 9 pt/11 pt, black or white
Publication number	Gotham Medium , 6 pt/8 pt, black or white

Imagery Placement

Imagery, such as photography or graphic elements, are placed in the imagery window (or arc). See examples below for both imagery and color variations. Adjusting the width of the imagery window for either a 0.25" border or bleed is done by scaling only the X axis by 105 percent to retain grid height.

Inside Pages

There are no grid or layout specifications for the inside pages of a publication. The only requirement is **U.S. Census Bureau** must appear in the footer of each page at no smaller than 6 points. The title of a report may appear in the footer on the outside margins with the page numbers, **U.S. Census Bureau** is aligned to the inside margins.

The **Gotham** font family should be used throughout the report.

SHORT REPORTS

The short report cover is organized similar to the basic report cover. The major difference is that the short report begins on the cover. Content conveyed by either text and/or graphs is positioned on the cover in the imagery arc (see below, left) or center panel for economic reports (see below, right).

As with the basic report cover, a grid is provided for the short report cover format. The **Gotham** font family should be used throughout the report.

Demographic Turning Points for the United States: Population Projections for 2020 to 2060

Population Estimates and Projections

Current Population Reports

By Jonathan Vespa and Lauren Medina
P25-044
Issued March 2018

INTRODUCTION

The year 2020 marks a demographic turning point for the United States. Beginning that year, all baby boomers will be older than 65. This will expand the size of the older population so that one in every five Americans is projected to be retirement age. For the first time in U.S. history, older people are projected to outnumber children, and later that decade, we project there will be more elderly than babies. The year 2020 marks another demographic first for the United States. That year, immigration is projected to overtake natural increase (the excess of births over deaths) as the primary driver of population growth for the country. Once deaths are subtracted from the population, the number of people added through births will be smaller than the number added through net international migration. These three demographic milestones are expected to make the 2020s a transformative decade for the U.S. population.

Beyond 2030, the U.S. population is projected to grow slowly, to age considerably, and to become more racially and ethnically diverse. This report looks at these changes and summarizes results from the U.S. Census Bureau's 2017 National Population Projections. It focuses on 2030.

2017 NATIONAL POPULATION PROJECTIONS

The results in this report are based on the 2017 population projections, which are the third set of projections based on the 2010 Census, and cover the period from 2017 to 2060. This series updates the prior series released in 2014, which was the first to incorporate separate assumptions about the fertility of native- and foreign-born women living in the United States, since the latter tend to have higher fertility rates.

The 2017 series extends that work to include separate assumptions about the mortality of native- and foreign-born people. For the first time, the national population projections will account for the generally lower mortality rates and higher life expectancy of the foreign born, which allows us to better project for the effects of international migration. The 2017 series also includes projections of the racial and ethnic composition of children and older adults for the first time.

The 2017 National Population Projections include projections of the resident population by several demographic traits, including age, sex, race, Hispanic origin, and nativity (whether people were born in the United States or in another country). They are based on the 2010 Census and official population estimates through 2016. This series uses the cohort-component method, which projects the three components of population change—fertility, mortality, and international migration—separately for each birth cohort based on historical trends. The base population is advanced each year using projected survival rates and net international migration. New birth cohorts are added to the population by applying the

Summary of the Quarterly Survey of Public Pensions for 2017: Q3

Asset Growth Continues in Third Quarter 2017

By Phineas Canney, Daniel Papp, and Gráinne Turner
Released January 2018
SP-044

ASSETS GROWTH CONTINUES

For the 300 largest public-employee pension systems in the country, assets (cash and investments) totaled \$2,691.1 billion in the third quarter of 2017, increasing by 2.8 percent from the 2017 second-quarter level of \$2,597.7 billion. Compared to the same quarter in 2016, assets for these major public-pension systems increased 9.0 percent from \$2,386.4 billion. This continues the growth trend that began in the third quarter of 2015. The summary highlights the major asset categories (equities, debt instruments, and cash equivalents) and does not reflect all of the categories published for the Quarterly Survey of Public Pensions. Please see the complete datasets on the Web site at www.census.gov/spqp/qpr/ for further detail.

INTERNATIONAL SECURITIES MARKET VALUE RISES

The market value of international securities increased 41 percent quarter-to-quarter, from \$705.5 billion to \$790.5 billion during the third quarter of 2017. International securities experienced a year-to-year increase of 11 percent from \$694.5 billion in the third quarter of 2016, which is greater than the overall increase in assets (9.0 percent) during the same period. International securities now comprise over one-fifth (21.6 percent) of the total cash and investments of major public-pension systems for the current quarter, which is the highest level since March 2016.

BROCHURES AND BOOKLETS

Trifold brochures and 5½ x 8½ inch booklets use an adjusted version of the grid system established for reports and short reports. The structure of the smaller grid for brochures and booklets determines how and where the information on the cover is placed. It dictates the location of cover elements (including text, images, and logos) and allows for an adequate gutter to accommodate folds.

The **Gotham** font family is used throughout brochures and booklets.

FACTSHEETS

Three factsheet templates have been designed to accommodate a range of content. The templates use the corporate colors and fonts and the logo is consistently placed on the lower left of the page. The arrangement of elements on the second page of the template is determined by the art director or graphic artist based on the amount of content.

Template 3 is available in Microsoft Word under **File/New/CUSTOM** In the **Office Global Templates/Census Templates** folder.

The 2020 Census at a Glance

Count everyone once, only once, and in the right place.

The U.S. Constitution requires that each decade we take a count—or a census—of America's population. The 2020 Census goal is to count everyone once, only once, and in the right place.

The census provides vital information for you and your community.

- It determines how many representatives each state gets in Congress.
- Communities rely on census statistics to plan for a variety of resident needs including new roads, schools, and emergency services.
- Businesses use census data to help provide more local jobs and places to shop.

Each year, the federal government distributes hundreds of billions of dollars to states and communities based on U.S. Census Bureau data.

In 2020, we will introduce new technology to make it easier than ever to respond to the census. For the first time, you will be able to respond online, by phone, or by mail. We will use data that the public has already provided to cut down on household visits. And, we are building a more accurate address list and automating our field operations—all while keeping your information confidential and safe.

The Census Bureau is the leading source of statistical information about the nation's people. We provide snapshots on population size and growth and detailed portraits of our changing communities.

Foundation of a Successful Census

Establish Where To Count

- Using aerial imagery and on-field work to identify new homes and buildings
- Partner with U.S. Postal Service
- Local governments input through the Biennial Information Survey and Local Update of Census Addresses
- Comprehensive review of all addresses

Motivate People To Respond

- Partner with community leaders and trusted voices
- Use tailored messages
- Encourage self-response

Count The Population

- Respond online, by phone, or by mail
- Visit households that do not respond
- Online forms in multiple languages
- Match individual Census ID to not required for online response

Release Census Results

- Deliver report counts to the President by December 31, 2020
- Release counts for redistricting by April 1, 2021
- Make a score for the public to access data

April 2017

Tribal Affairs

Intergovernmental Affairs Office (IAO)

ACCOMPLISHMENTS AND FUTURE FUNCTIONS OF THE OFFICE

FY 2017

The Tribal Affairs team led an active year of outreach.

- A second round of 2020 Census Tribal Consultations were completed, in addition to the 2020 Census Tribal Consultation Final Reports.
- Regular updates were sent to Tribal Leadership, Tribal Organizations, and 2020 Consultation Meeting participants.
- Supportive efforts were made, leading to the release of the My Tribal Area Data Tool.
- Participated on the Remote Alaska Enumeration Planning Team.

FY 2018

As the year progresses, the activities of the Tribal Affairs team have expanded. Currently planned, the team will:

- Continue to manage the Tribal Affairs Working Group
- Lead the Tribal Affairs Liaison Team at the U.S. Department of Commerce
- Continue assistance with Remote Alaska Enumeration Team
- Continue outreach and liaison work with AIAN Federal partners
- Attend and coordinate events that promote Census Bureau programs and available data products

The Tribal Affairs team works closely with American Indian and Alaska Native (AIAN) tribal nations on a government-to-government basis to address issues concerning Tribal self-government. The government-to-government relationship is based on the United States Constitution, federal treaties, policy, law, court decisions, and executive orders, and the ongoing political relationship among tribal nations and the federal government. The IAO serves as the principal liaison office for tribal affairs and is the principal advisor to the director and executive staff on tribal issues and concerns. The team's work focuses on collaborating with other agencies, building and maintaining relations with tribal leaders, tribal associations, and tribal members in order to educate, inform, participate, consult, and share program information from across the U.S. Census Bureau.

MY TRIBAL AREA DATA TOOL

The Census Bureau collects data for the AIAN population and publishes specific counts, estimates, and statistics from the American Community Survey (ACS). The ACS provides detailed demographic, social, economic, and housing statistics every year for the nation's communities. The My Tribal Area data tool allows the user to select a tribal area for viewing of its unique statistics. Estimates are updated automatically with new releases.

TRIBAL CONSULTATION REPORTS

The Census Bureau held a series of 17 tribal consultation meetings and one national webinar from the Fall of 2015 through the Fall of 2016. Hard copies of the final reports, resulting from the consultations, were mailed to tribal leaders and participants. Electronic copies can be found at <https://www.census.gov/ia>

The 2020 Census at a Glance

Counting everyone once, only once, and in the right place

The U.S. Census Bureau is the federal government's largest statistical agency. We are dedicated to providing current facts and figures about America's people, places, and economy. Federal law protects the confidentiality of all the information the Census Bureau collects.

The U.S. Constitution requires that each decade we take a count—or a census—of America's population. The 2020 Census goal is to get a complete and accurate count.

The census provides vital information for you and your community.

- It determines how many representatives each state gets in Congress.
- Communities rely on census statistics to plan for a variety of resident needs including new roads, schools, and emergency services.
- Businesses use census data to help provide more local jobs and places to shop.

Each year, the federal government distributes hundreds of billions of dollars to states and communities based on Census Bureau data.

In 2020, we will introduce new technology to make it easier than ever to respond to the census. For the first time, you will be able to respond online, by phone, or by mail. We will use data that the public has already provided to cut down on household visits. And, we are building a more accurate address list and automating our field operations—all while keeping your information confidential and safe.

COPY, MESSAGING, AND USAGE

The Public Information Office (PIO) provides a repository of information for presenting who we are and what we do. The PIO talking points provide the “first words” to say about key Census Bureau topics.

The talking points have simple, high-level information that can be used as a resource for situations including:

- Talking with stakeholders, conference attendees, or the media.
- Making presentations.
- Drafting other written material.

See the Public Information Office Talking Points intranet page for the copy and detailed guidance at <<https://collab.ecm.census.gov/div/pio/intranet/PIOTP/Pages/default.aspx>>. Check back often, as we grow and update our talking points inventory to maintain timeliness.

Census.gov features copy and messaging that have been vetted and approved before circulation in the public domain. Every piece of copy, messaging, and content may be used on other integrated communications materials and platforms.

PREFERRED STYLE GUIDE

In order to unify our communications materials, *The Gregg Reference Manual* (Eleventh Edition) by William A. Sabin (New York: McGraw-Hill, 2011) has been selected as the single source regarding usage. Everyone who writes, edits, or proofreads should have a copy available. The only exception is for materials being produced for the media. Per DOC guidance, the Associated Press Style Guide should be used in these instances.

The Plain Writing Act of 2010 requires that federal agencies use clear communication that the public can easily understand and use. Plain language must be used in any document that explains to the public the business, mission, or products of the agency. For more information on plain language, see <<https://intranet.ecm.census.gov/sites/v2/futureon/dataclarity/plainlanguage/SitePages/Default.aspx>>.

508 Compliance

Section 508 of the Rehabilitation Act requires all communications materials be available in accessible formats for individuals with disabilities. Contact the Graphic and Editorial Services Branch for PDF tagging.

MAIL—ENVELOPES

Addressing Mail

The Postal Service defines a ***complete address*** as one that has all the address elements necessary to allow an exact match with the current Postal Service ZIP+4 and City State files to obtain the finest level of ZIP+4 and delivery point codes for the delivery address.

A ***standardized address*** is one that is fully spelled out, abbreviated by using the Postal Service standard abbreviations (shown in this publication) or as shown in the current Postal Service ZIP+4 file.

**ABC MOVERS
1500 E MAIN AVE STE 201
SPRINGFIELD VA 22162-1010**

Recipient Line
Delivery Address Line
Last Line

**MR JOHN DOE
123 MAGNOLIA ST
HEMPSTEAD NY 11550-1234**

Address Block

Format all lines of the address with a uniform left margin. Uppercase letters are preferred on all lines of the address block.

Common Designators

The most common unit designators are:

APARTMENT	APT
BUILDING	BLDG
FLOOR	FL
SUITE	STE
UNIT	UNIT
ROOM	RM
DEPARTMENT	DEPT

Pound Sign (#)

If the pound sign (#) is used, there must be a space between the pound sign and the secondary number.

425 FLOWER BLVD # 72

Attention Line

The Attention Line is placed above the Recipient Line, that is, above the name of the firm to which the mailpiece is directed.

**JOHN DOE
ABC COMPANY
1401 MAIN ST
FALLS CHURCH VA 22042-1441**

**ATTN JOHN DOE
ABC COMPANY
1401 MAIN ST
FALLS CHURCH VA 22042-1441**

Punctuation

With the exception of the hyphen in the ZIP+4 Code, punctuation may be omitted in the delivery address block.

**MR. WALTER W. WITHERSPOON JR.

Business Reply Mail Layout Guidelines (505.1.5)

Company Logo: For barcoded pieces, a company logo is permitted in the address block if it is placed no lower than $\frac{5}{8}$ inch from the bottom edge of the mailpiece and does not interfere with the barcode clear zone.

Postage Paid Line: Place the endorsement "POSTAGE WILL BE PAID BY ADDRESSEE" (in capital letters) under the business reply legend box.

Permit Holder Space: May contain information such as return address, logos, distribution codes, and form numbers.

Business Reply Legend: The words "BUSINESS REPLY MAIL" are required above the address in capital (uppercase) letters. Immediately below, place the words "FIRST-CLASS MAIL PERMIT NO." followed by the permit number and the name of the issuing Post Office (city and state) in capital letters.

Facing Identification Mark (FIM): A FIM pattern (specifically FIM B without barcode or FIM C with barcode) is required on all BRM postcards and letter-size mailpieces. The FIM clear zone must contain no printed matter other than the FIM pattern. FIM bars must be between $\frac{1}{2}$ and $\frac{3}{4}$ inch high and 0.03125 inch ($\frac{1}{32}$ inch) (± 0.008 inch) wide.

Postage Imprint: "NO POSTAGE NECESSARY IF MAILED IN THE UNITED STATES" must appear in the upper right corner of the mailpiece and must not extend more than $1\frac{3}{4}$ inches from the right edge.

Address Format: The complete address, including the name of the permit holder (company or individual), must be printed on the mailpiece.

ZIP Code: A unique ZIP+4 code is assigned to each piece.

Before printing, submit proofs of BRM samples to your local Post Office for advice and approval. Take advantage of this service—it could save you money. Qualified Business Reply Mail pieces must be approved by the USPS before printing.

Dimensions: Between $3\frac{1}{2}$ by 5 inches and $6\frac{1}{2}$ by 11 $\frac{1}{2}$ inches. To qualify for the card price, cards must be between $3\frac{1}{2}$ by 5 inches and $4\frac{1}{4}$ by 6 inches and between 0.007 and 0.016 inch thick. Larger card sizes are available, but they are charged at First-Class Mail letter price.

Barcoded pieces measuring more than $4\frac{1}{4}$ inches high or 6 inches long must be at least 0.009 inch thick.

- Additional standards apply to QBRM pieces (505.1.3).
- A surcharge is assessed for nonmachinable letters (101.1.2).

Ink/paper Colors and Type Styles: Not all colors of paper and/or ink and type styles are compatible with automated equipment. Contact your local Post Office for guidance.

All letter-size reply cards and envelopes (Business Reply Mail, Courtesy Reply Mail, and meter reply mail) provided as enclosures in automation First-Class Mail, Periodicals, and USPS Marketing Mail must meet the standards in 201.3.0.

PHOTO POLICY

The Public Information Office (PIO) maintains a stock photography subscription to provide still images and illustrations for communications products. PIO ensures that images are appropriate, adhere to contractual terms for duplication and distribution, and are reviewed and approved to meet Census Bureau communications standards.

The PIO can arrange photographic coverage of various activities and events through the use of our staff photographer or through the contracts for professional photography that we maintain. A collection of stock photographs of Census Bureau buildings, staff, and operations can be found at <http://cwww.census.gov/pio/pio_services.html>.

Requests for image downloads from PIO

Submit a request for digital images and stock photography using the Census Document Ordering System (**CENDocS**). The system is available on **Census Central** under the **Admin Services** drop down menu. Log in with your jamesbond ID and network password. (A CBS account is required. If you don't already have a CBS account, contact your division's CBS Coordinator to request a CBS account for access to CENDocS.)

Under the **Order** tab select **New Order**, then select, **Graphic Design** under the **Publication Services** heading.

Fill out REQUEST DETAILS. Leave DOCUMENT SPECIFIC DETAILS blank. There is a dialog box at the bottom of the form (**Other Instructions**) for information about your project and to enter the type of image files needed for download.

For users that have been provided "View Only" access to our image collections subscription, provide the Board Name and Collaborators link in "Other Instructions."

To get viewing access to PIO's stock photography subscription, submit your name and e-mail address to pio.graphic.and.editorial.services.list@census.gov. A guide and search instructions will be forwarded to you when your access is set up.
